

PUBLICATIONS APPEARING IN 2007

- [1] **Francesco Barioli**. Linear transformations. In L. Hogben, editor, *Handbook of Linear Algebra*. CRC Press, 2007.
- [2] **Francesco Barioli** and S.M. Fallat. On the minimum rank of the join of graphs and decomposable graphs. *Linear Algebra Appl.*, 421:252–263, 2007.
- [3] M. Bartušek and **John R. Graef**. Asymptotic behavior of solutions of a differential equation with p-Laplacian and a forcing term. *Differential Equations and Dynamical Systems*, 15:61–87, 2007.
- [4] M. Bartušek and **John R. Graef**. Strong nonlinear limit-point/limit-circle properties for a class of fourth order equations. *Communications in Applied Analysis*, 11:469–484, 2007.
- [5] **Boris P. Belinskiy**. Optimal design of an optical length of a rod with the given mass. *Discrete and Continuous Dynamical Systems (DCDS Supplements)*, pages 85–91, 2007.
- [6] **Boris P. Belinskiy** and P. Caithamer. Energy estimate for the wave equation driven by a fractional Gaussian noise. *Discrete and Continuous Dynamical Systems (DCDS Supplements)*, pages 92–101, 2007.
- [7] **Boris P. Belinskiy** and I. Lasiecka. Gevrey’s and trace regularity of a semigroup associated with beam equation and non-monotone boundary conditions. *Journal of Mathematical Analysis and Applications*, 332(1):137–154, 2007.
- [8] **Boris P. Belinskiy**, **John R. Graef**, and R. E. Melnik. Modeling a wing in an air flow. In O. Dosly and P. Rehak, editors, *Colloquium on Differential and Difference Equations CDDE 2006 Proceedings*, volume 16 of *Matematika*, pages 21–31. Folia FSN Universitatis Masarykianae Brunensis, 2007.
- [9] **Sharon Brueggeman**. Pythagorean triples with square and triangular sides. *College Mathematics Journal*, 38:138–140, 2007.
- [10] **Betsy Darken**. Educating future elementary and middle school teachers. *Focus: The Newsletter of the Mathematical Association of America*, 27(5):20–21, 2007.
- [11] **Betsy Darken**. *Fundamental Mathematics for Elementary and Middle School Teachers*. Kendall/Hunt Pub. Co., 2007.
- [12] B. C. Dhage and **John R. Graef**. Existence results for functional differential inclusions in Banach algebras. *Nonlinear Studies*, 14:205–218, 2007.
- [13] R. Dhanasekaran, **John R. Graef**, S. Pandian, and E. Thandapani. Asymptotic results for a class of fourth order quasilinear difference equations. *Journal of Difference Equations and Applications*, 13:1085–1103, 2007.
- [14] **Aniekan Ebiefung**. Existence theory and the Q-matrix characterization for the generalized linear complementarity problem: Revisited. *Journal of Mathematical Analysis and Applications*, 329:1421–1429, 2007.
- [15] **Aniekan Ebiefung**. A relaxation of the input-output pollution system. In *Proceedings of the 37th Annual Conference of the Southeast Decision Sciences Institute*, pages 1183–1189, 2007.
- [16] **John R. Graef**. Review of “Sturm–Liouville theory: Past and present” by W. O. Amrein, A. M. Hinz, and D. B. Pearson, editors. *Society for Industrial and Applied Mathematics Review*, 49:343–346, 2007.
- [17] **John R. Graef** and M. Bartušek. The strong nonlinear limit-point/limit-circle properties for super-half-linear equations. *PanAmerican Mathematical Journal*, 17:25–38, 2007.
- [18] **John R. Graef** and B. C. Dhage. First order functional differential equations with periodic boundary conditions. *Applicable Analysis*, 86:205–221, 2007.
- [19] **John R. Graef**, J. Henderson, and Bo Yang. Positive solutions of a nonlinear higher order boundary value problem. *Electronic Journal of Differential Equations*, 2007(45):1–10, 2007.
- [20] **John R. Graef** and **Lingju Kong**. Necessary and sufficient conditions for the existence of symmetric positive solutions of singular boundary value problems. *Journal of Mathematical Analysis and Applications*, 331(2):1467–1484, 2007.
- [21] **John R. Graef** and **Lingju Kong**. A necessary and sufficient conditions for the existence of positive solutions of nonlinear boundary value problems. *Nonlinear Analysis*, 66(1):2389–2412, 2007.
- [22] **John R. Graef** and **Lingju Kong**. Existence of solutions for nonlinear boundary value problems. *Communications on Applied Nonlinear Analysis*, 14:39–60, 2007.

- [23] **John R. Graef**, **Lingju Kong**, and Q. Kong. Symmetric positive solutions of nonlinear boundary value problems. *Journal of Mathematical Analysis and Applications*, 326:1310–1327, 2007.
- [24] **John R. Graef** and A. Ouahab. Some existence and uniqueness results for impulsive functional differential equations with variable times in Fréchet spaces. *Dynamics of Continuous, Discrete and Impulsive Systems*, 14:27–45, 2007.
- [25] **John R. Graef** and B. Yang. Positive solutions of a nonlinear fourth order boundary value problem. *Communications on Applied Nonlinear Analysis*, 14:61–73, 2007.
- [26] Haynes, Henning, Slater, and **Lucas van der Merwe**. The complementary product of two graphs. *Buletin of the Institute of Combinatorics and its Applications*, 51:21–30, 2007.
- [27] Charles R. Johnson and **Ronald L. Smith**. Path product matrices and eventually inverse M-matrices. *SIAM Journal on Matrix Analysis and Applications*, 29(2):370–376, 2007.
- [28] Charles R. Johnson and **Ronald L. Smith**. Positive, path product, and inverse M-matrices. *Linear Algebra and Its Applications*, 421:328–337, 2007.
- [29] **Lingju Kong** and Qingkai Kong. Multi-point boundary value problems of second-order differential equations (ii). *Communications on Applied Nonlinear Analysis*, 14(1):93–111, 2007.
- [30] **Lingju Kong** and Qingkai Kong. Right-definite half-linear Sturm-Liouville problems. *Proceedings of the Royal Society of Edinburgh: Section A*, 137(1):77–92, 2007.
- [31] **Lingju Kong** and Qingkai Kong. Second-order boundary value problems with nonhomogeneous boundary condition (ii). *Journal of Mathematical Analysis and Applications*, 330(2):1393–1411, 2007.
- [32] **Marc Loizeaux** and **Lucas van der Merwe**. 4-critical graphs with maximum diameter. *JCMCC*, 60:65–80, 2007.
- [33] **Edward Rozema**. Epidemic models for SARS and measles. *College Mathematics Journal*, 38:246–259, 2007.
