Please refer to the Undergraduate Catalog for Biology courses that are required for the Bachelor's Degree in Biology. All courses with an asterisk (\*) must be taken at the 300 or 400 level to meet the upper level 39 credit hour requirement for graduation. Biology majors interested in applying to the UTC PT program are recommended to pursue the Biology:General major instead of the Biology: Preprofessional major. Make an appointment with a faculty member in the Biological and Environmental Sciences Department for assistance in choosing courses. **Red** = PT required courses; **Blue** = not required for PT school admission, but admitted students who have not taken a medical terminology course will be required to take a test the first week of classes.
