

Assistant Professor in Earth Surface Processes

The University of Tennessee at Chattanooga Geology program invites applicants for an assistant professor tenure-track appointment to begin August 2010. We seek a Ph.D. geologist with research interests in low-temperature aqueous geochemistry, hydrology, clay mineralogy or soil science. The successful candidate will be committed to undergraduate teaching, demonstrate familiarity with modern research and geotechnical tools and techniques, and possess excellent communication and interpersonal skills. Teaching responsibilities will include introductory geology, upper-level courses in areas of expertise, and supervision of undergraduate research. Send curriculum vitae, transcripts, a statement of teaching philosophy and research interests, and three letters of recommendation to: Dr. Habte G. Churnet, Head, Department of Physics, Geology, and Astronomy # 6556, 615 McCallie Avenue, The University of Tennessee at Chattanooga, Chattanooga, TN 37403. Review of application materials will begin January 15, 2010 and will continue until the position is filled. The University of Tennessee at Chattanooga is an equal employment opportunity/affirmative action/Title VI & IX/Section 504/ADA/ADEA institution.
