Grade Appeals Committee

Re: Annual Report, AY 2007-2—8

Date: April 10, 2008

The Grade Appeals Committee met five times this academic year (8/3/07, 1/16/08, 1/24/08, 1/29/08, and 4/3/08) to consider grade appeals by students in all four undergraduate Colleges and in five different departments. In all cases the appeals were thoughtfully and fully considered by the Committee and in each case the appeal was denied. All students were, of course, reminded that they could appeal the Committee's decision to the Chancellor.

The Committee has also begun work to clarify the description of the grade appeals process and its description in the faculty and student handbooks. We plan to have a form that will help everyone involved in each appeal know precisely what has to be accomplished, by whom, and in what order.
