RE: HHP class pre-requisite changes

The following actions are requested by HHP Department:

Current with proposed changes	Proposed
<p>HHP 3300 - Physical Education in the Elementary School (3) Credit Hours</p> <p>Practical aspects of planning, organizing, administering, and evaluating program activities, theories of play, principles of movement as they correspond to levels of growth and development of elementary children; teaching methods and materials in elementary physical education. Every semester. Add EDUC 2010</p>	<p>HHP 3300 - Physical Education in the Elementary School (3) Credit Hours</p> <p>Practical aspects of planning, organizing, administering, and evaluating program activities, theories of play, principles of movement as they correspond to levels of growth and development of elementary children; teaching methods and materials in elementary physical education. Every semester. EDUC 2010</p>
<p>Action: Add EDUC 2010 Education in the United States Rationale: Students should have some exposure to education and the teacher education program before taking this class.</p>	

<p>HHP 4520 - Problems in Health: Aging and Death Education (3) Credit Hours</p> <p>Analysis of concepts and attitudes toward aging, death, bereavement, prevention and control of communicable and degenerative diseases. Spring semester. Prerequisites: HHP 1000, HHP 3020, HHP 3030, or equivalent or department head approval.</p>	<p>HHP 4520 - Problems in Health: Aging and Death Education (3) Credit Hours</p> <p>Analysis of concepts and attitudes toward aging, death, bereavement, prevention and control of communicable and degenerative diseases. Spring semester.</p>
<p>Action: Delete the current pre-requisites Rationale: Since Child and Family Study majors are required to take this course it is unfair to list HHP 1000 and 3020 as prerequisites for this class. Also, 3030 is listed as a prerequisite even though our HHP majors can take either 3030 or 4520, so that one doesn't make sense.</p>	
<p>HHP 4560 - Research Methods in Exercise Science and Health Promotion (3) Credit Hours</p> <p>Study of health problems and current professional literature; review of new approaches in techniques and methodology used in health research. Spring and fall semester. Prerequisite: department head approval or HHP senior or graduate standing.</p>	<p>HHP 4560 - Research Methods in Exercise Science and Health Promotion (3) Credit Hours</p> <p>Study of health problems and current professional literature; review of new approaches in techniques and methodology used in health research. Spring and fall semester. Prerequisite: Any approved general education statistics course or department head approval.</p>
<p>Action: Add a pre-requisite of a general education statistics course Rationale: Students are required to do a statistical analysis of their data in this class. Therefore, the additional pre-requisite of a general education statistics class will increase the students' ability to successfully complete this class.</p>
