

A Note About The Construction Of The New Library...

With construction of the new library beginning there are a few things we in the University Center would like to share with the UTC Community.

- There may be increased noise from the construction for events in the Chattanooga Rooms. We cannot request that the work be stopped during your event to prevent the noise.
- No vehicles will be able to access the area of Vine Street between Douglas Street and Heritage Plaza. The road is blocked by construction equipment. This includes no entrance to Vine Street for vehicles from Lansing Court.
- Students traveling along Vine Street will need to use the sidewalk on the University Center side of the street.
- Please allow extra time for approval of events on Vine Street directly behind the UC. Safety is our number one concern around the area, and some events may not be allowed in that area.
- Do not go beyond the safety fence and enter the construction area for any reason. If you see someone you believe is not supposed to be in the construction area please notify the UC Office (Room 226) or call UTC Police (423-425-4357) immediately.
