- I. **Indicate which of your primary objectives (as described in your application/proposal) were achieved.** If you were unable to accomplish an objective, or unanticipated objectives emerged, please explain. Indicate the directions of any personal development. If you undertook research, explain whether you have found this project rewarding.

- II. **Indicate which of the project outcomes of your grant (as described in your application/proposal) were achieved.** If you were unable to achieve an anticipated outcome, or if additional outcomes materialized, please explain.
- III. **Describe the strategy you followed in achieving these outcomes.** If that plan differs substantially from that which you proposed in your application/proposal, explain why.
- IV. **Indicate the extent to which the budgetary support you received (if any) proved adequate.** Indicate any funding received from external sources.
- V. **Using the standards presented in your application/proposal, evaluate the outcomes of your grant.** Consider the long-term benefits likely to accrue to you, your students, and the University. If some of these standards are no longer appropriate, or if other standards now seem more appropriate, please explain.
