

**UTC SOCIAL WORK DEPARTMENT**  
**ADJUNCT FACULTY EVALUATIONS**

The Social Work Department utilizes a standardized internal course evaluation to assess adjunct faculty. This course evaluation assesses the following:

- Teaching methods utilized
- Interaction with students
- Course content covered
- Adherence to course objectives in terms of accreditation

At the end of each academic, the results of these course evaluations are compiled and the department head meets individually with each adjunct faculty member to review the feedback from these course evaluations. These course evaluation data is then kept in the faculty file in the department.
