

Advisement Program

UTC Geology Majors and Minors

The Geology program provides academic advisement for geology majors and minors. Prior to signing up for the next semester of classes, each student will schedule an advisement session, at which the advisor will discuss the student's course of study and provide an Alternate PIN code for registration. This code changes each semester and students must meet with an academic advisor to receive it. Students are encouraged to see the appropriate geology advisor listed below.
