- E-Payables** – This is the fastest payment method and the terms are “Net 0”. **For E-payables the Vendor must be equipped to process credit card payments.** The vendor will be supplied a University credit card **number** via a secure “Welcome to E-Payables” email from “University of Tennessee @works.com” – a plastic card will not be provided. The account will have a zero balance. However, once an invoice(s) is approved for payment, funds will be loaded to the account and a secure electronic remittance advice will be sent to the contact listed above along with approval to charge the card number for the amount of the invoice(s). **The vendor will then KEY into their credit card machine the card number and amount of payment to process the payment.**

- Direct Deposit, ACH – You are only eligible for this payment method if you have a bank account with a bank located in the United States. (If your information contains a SWIFT code, then you do not have an account with a United States bank. The payment will be direct deposited into your bank account 30 days after the invoice date or the date the goods or services were provided, whichever is later. To process this information the University needs your bank routing number and bank account number, which can be located on your checks. See illustration below.**
