

Spring 2016: Prep for Registration

Plan for the major you want – not the major you have!

1. Access MyMocsDegree: MyMocsNet – Academics tab – My Degree Evaluation – MyMocsDegree

2. Check the Major listed. If it is correct for you, move to Step 3. If you would like to change majors, you will complete the “What If” process (noted below).

Level	Undergraduate
Degree	BSCE in Civil Engineering
College	Engineering & Computer Science
Major	BSCE Civil Engineering

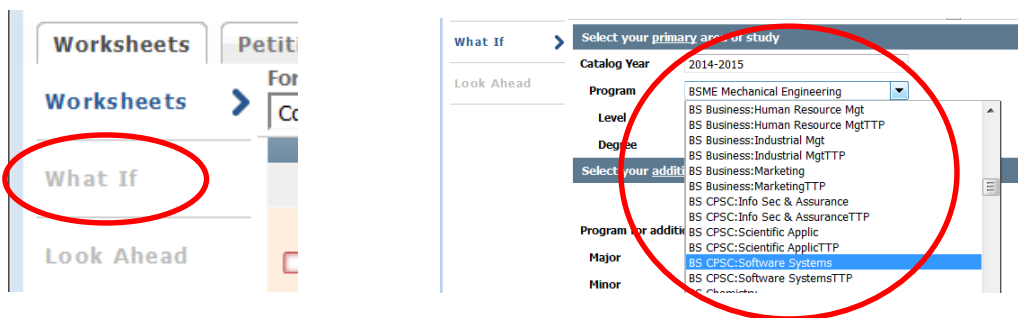

3. If your major in MyMocsDegree is correct, click on the “Save as PDF” box.

4. Your MyMocsDegree will pop up in a new window (be sure your Pop-Up Blocker is off)
5. Print your MyMocsDegree.

Changing your major? Selecting a concentration? Adding a Minor? Follow this “What If” process:

- A. Click the “What If” tab.
- B. To Change your Major/Select a Concentration, choose from the Program list.

- C. To Add a Minor, select from the Minors list.
- D. Once all choices are completed, click the Save as PDF link. Your MyMocsDegree will pop up in a new window (be sure your Pop-Up Blocker is off). Print your MyMocsDegree.

6. Locate the Clear Path to match your preferred major. These are available at <http://www.utc.edu/advisement/advisingresources/clearpath2015-2016.php>. Print the appropriate PDF.
7. Make a list of the classes you expect to take next semester based on a comparison of your Clear Path and your MyMocsDegree requirements. You may not be perfectly matched to your Clear Path, and that’s OK.
8. Bring ALL 3 documents with you to meet with your advisor. We will discuss your plan in more detail at our next advising session.
