

Chemistry & Physics

Advisement and Mentoring Program

We provide **academic advisement, mentoring, and career counseling** for **freshman, sophomore, junior, and senior students**. Prior to signing up for the next semester of classes, each student should schedule an advisement session where the advisor will discuss the student's course of study. Advisors will normally put up sign up sheets for Advisement times. Be on time for your appointment and bring a list of classes completed (such as MyMocs Degree list) and a list of what you expect to take in the next semester. To progress in your course work, you must look at the online catalog course descriptions so you can plan for the pre- and co-requisites requirements for your courses.

Pre-Health career preparation: Below is a list of departmental faculty that will guide you through the process. General information and assistance is available for pre-health professional programs (such as pre-pharmacy, pre-medicine, pre-dental) through the Pre-Health Advising office directed by Jennifer-Guess@utc.edu <https://www.utc.edu/center-advisement/>.*

<u>CHEMISTRY NOT in pre-health area</u>	<u>Advisor</u>	<u>Student's last name</u>	<u>Office</u>
BS Chemistry	Dr. Albu	A - G	314 Grote
	Dr. Lee	H - O	401 Grote
	Dr. Rybolt	P - Z	302 Grote
BS Chemistry: Biochemistry	Dr. Knight	A - M	310 Grote
	Dr. Kim	N - Z	311 Grote
BS Chemistry: STEM Education	Dr. Potts		402 Grote
<u>CHEMISTRY in pre-health profession*</u>			
After graduation, you hope to go to:			
Medical School	Dr. Santiago	A - J and S - Z	318 Grote
	Dr. Potts	K - R	402 Grote
Dental School	Dr. Park		313 Grote
Pharmacy School	Dr. Symes		304 Grote
