

# McKee Foods Job Posting

<b>JOB OPENING:</b>	<b>Software Development Intern</b>
<b>LOCATION:</b>	Collegedale TN
<b>REQUISITION:</b>	R0001844
<b>HOURS:</b>	Monday - Friday, 8:00 a.m. – 5:00 p.m. (as school schedule allows)
<b>PAY RANGE:</b>	\$13.26 – \$20.91

Best known for Little Debbie® snack cakes, America's leading snack cake brand, Sunbelt Bakery® granola products, and Drake's Cakes®, McKee Foods Corporation is seeking a Software Development Intern who will work with software developers in the I/S Manufacturing Systems Support Group. This position will receive guidance from a senior I/S Systems Analyst as he/she develops software that will be used inside of a leading snack-food manufacturer. Starting immediately, the ideal candidate will learn with us throughout his/her college career. This is an exciting opportunity to gain valuable experience with a company that is committed to providing consumers with quality products at an excellent value. McKee Foods is a privately held, family owned company with a 50+ year history of innovation and treating employees with respect, and a deeply held belief in the importance of doing business with integrity.

## Job Summary

You'll learn from a great team of I/S professionals to create software that solves problems that matter! As an Intern in the I/S Manufacturing Systems Support Group, you will be an active part of the team that creates software to assist in the manufacturing process. You will be a part of the entire spectrum of the development process from requirements gathering, planning, coding, testing, deployment and ongoing support. Together you'll help us design or enhance services, mobile applications, internal websites and other Windows-based software as we work with users to come up with creative solutions that solve real problems faced in a world-class manufacturing environment.

Make McKee Foods a part of your education plan and develop the technical, business and customer-service skills needed to become a well-rounded software development professional.

## Required Qualifications

- *Current enrollment* in a BS or MS degree program in Computer science, Information Systems, or a related field
- Development experience with modern programming languages
- Strong analytical and troubleshooting skills
- Experience using PCs and Microsoft Windows applications
- Strong working knowledge of Microsoft Office tools
- Experience with development tools such as Visual Studio
- Excellent written and verbal communication skills
- Customer service focused with a high level of professionalism
- Ability to perform with minimal supervision
- High level of initiative, assertiveness and self-direction
- Strong desire and aptitude to learn quickly and develop new skills

## Preferred Qualifications

- Experience with PC application design and development using VB.NET or C#.NET
- Experience with relational databases such as Oracle and SQL Server
- Experience with mobile or Web application design and development

- Experience creating software to solve problems that you are passionate about
- Strong desire to develop software that positively impacts others and how our business operates

## Benefits

- Competitive pay scale.
- Flexible hours around school schedule.
- 401(k) with matching contributions.
- Direct deposit payroll.
- Credit Union.
- Exercise and recreation facility.

\*Please note: Spare and limited employees (including interns) are not eligible for some company benefits.

Please upload your current resume to be fully considered for this position.

## To apply
