Congratulations to our 2013 faculty retirees

“We honor a group of colleagues who have served our campus with distinction and dedication for many, many years and touched the lives of countless students across all disciplines. In fact, this group represents more than 600 years of combined service to this campus,” said Dr. Mary Tanner, Interim Provost. Tanner will also retire—she joined the University in 1971.

Blue and Gold Memorial

The Blue and Gold Memorial

Please join us for the annual Blue and Gold Memorial on Monday, April 15, 6 p.m. at Patten Chapel. It’s a time to remember those from the UTC family who have died in the last year.

If you have a name you would like to have read, here’s who to call:

Human Resources for employees and retirees, 425-4221;
Student Development for students, 425-4534;
Office of Alumni Affairs for students, 425-4785.

FACULTY 411
TIPS FROM OUR FACULTY

Before a pet is put on a regimen of physical therapy, consider its age. Very young dogs and very old dogs may present with significant management challenges related to behavior (socialization, attention span), tissue responses (excessive or insufficient) and mobility.

— Dr. David Levine, Professor and Walter M. Cline Chair of Excellence in Physical Therapy
