

# Accessing Your Student Rating of Faculty Results

To view detailed results from the Student Rating of Faculty, including student comments, follow the procedures below.

1. Log in to MyMocsNet (<http://www.utc.edu/my/index.php>)
2. Under the Home tab or Faculty tab, find the section labeled **Course Evaluations and Other Surveys** (usually in the lower left hand side of the screen).

All faculty will have an **Instructor Dashboard**, a matrix which includes all of the courses that were evaluated during the current semester. At the bottom of the Instructor Dashboard, click on **Course Evaluation Reporting** link.

3. You will then come to a listing of the courses for the current semester (or the most recent results available).

Comments

**Open comments:**

Which components of this class—such as lecture, discussion, assignments, exercises, and exams—best helped you learn?

All were very helpful. I think your discussion actually helped me learn the material because you weren't just reading off of the powerpoint, but adding to that material on the white boards. Also, group activities were very useful, being able to change scenery and learn different peoples ideas on the same topic was fascinating, especially when you had no idea it would be different than yours.

Discussion

Discussions for sure, she is great at lecture as well. The assignments are good but I really enjoyed the classroom discussions.

Group Work

Group work and reading helped the most.

Lecture and discussion

Lectures and discussions were the most beneficial for me.

The discussions in this class helped me learn. I don't typically have classes with discussions and this was a very good way to learn. The homework and reading assignments were also very interesting and helped solidify the concepts learned.

The lecture really made this class engaging and easy to learn. When the exams rolled around I felt very prepared based on what I knew from the lectures. Splitting up and having group discussions was also great.

The class was amazing and very easy to learn in. The lecture, discussion and assignments were all interesting, informative and helpful.

group work and class discussions.

the lectures and class discussions really helped. working in groups and her passion about this field really helps understand the material.

**What about this class could be changed to help you better learn?**

I honestly wouldn't change anything. This was by far my favorite class I've taken thus far at UTC. I learned the most, and genuinely enjoyed and looked forward to attending class. Great points!

N/A

Not really anything. I thought this class was great! Maybe make Accessory available online for every test because I did a couple points better on the test where I could online test instead with that!

Nothing
