

STUDENT PEER EVALUATION

YOUR NAME: _____ GROUP: _____

Please complete the below evaluation for each member of your team. (Do not include yourself.) Rate each member of your group on a scale of 0 to 10 (10 being the highest possible) in each area:

1. Cooperation & Dependability: Was the group member available for meetings? Was he or she cooperative in making group decisions?

2. Originality & Creativity: Did the member play a significant role in one or more areas of the cases? Did the person make contributions in analyzing the cases?

3. General Contribution: Did the member complete his or her "fair share" of the case? "Fair share" includes analysis, meeting attendance and participation, preparation, and presentation.

After you have rated the three areas for each member of your group, total your 0 to 10 scores in the "Overall Rating" column (30 being the highest score possible). Your evaluation is strictly confidential.

You may and are encouraged to add any comments you wish about the cases, the course, or your peer evaluations.
