New Employee Benefit - Automated Income and Employment Verifications

Are you applying for credit, leasing or renting, financing a purchase, or applying for government services? If so, we are pleased to announce that UTC is now partnering with The Work Number® database, which is a simple, quick, and private way to get your employment and income information to companies when needed. It's available 24/7 so that you can get the decisions you need when you need them.

When asked for proof of employment or income, simply refer requestors to:

- theworknumber.com

- 877-442-9963 M-F 8:00am to 8:00pm (ET)

- verifiersolutionssupport@equifax.com

The requestor will need to provide the Employer Code for UTC **(17617)**.

Benefits of The Work Number:

PRIVACY

Your personal information is protected. With your consent, your personal data can be retrieved only by credentialed verifiers.

BETTER SERVICE

The Work Number is available to those needing your information 24 hours a day. No waiting for your lender or landlord to exchange paperwork with your employer to close the deal.

CONSENT

You authorize credentialed verifiers to retrieve your income information by signing a borrowers authorization form, and application for a benefit (such as a loan or social service request), or by creating a salary key (a onetime access code).

SECURITY

The Work Number database uses stringent security standards to help protect your data. There are also controls in place by law (the Fair Credit Reporting Act) to help protect your privacy.

EMPLOYMENT DATA REPORT

Another advantage of The Work Number service is that it lets you check to make sure all your information is correct. The Employment Data Report (EDR) is required by the Fair Credit Reporting Act (FCRA) so you can see your personal information and who used it.

To learn more about the benefits of The Work Number service, please visit theworknumber.com. The Employer Code for UTC is **17617**. Additionally, please visit The Work Number FAQs for additional information.
