Fellow scholars:
This organization will bring together those from a wide range of fields interested in increasing our understanding of the renowned medieval philosopher, theologian, and natural scientist, Albert the Great (d. 1280). The society will facilitate communication between scholars worldwide and across disciplines, provide a gateway to current research and scholarship, and provide a list of conferences of interest for members. Those who wish to join this organization, or who have items for the newsletter, should contact Irven Resnick at: Irven-Resnick@utc.edu. In the future, the society plans to provide an electronic platform for the publication of new scholarship on Albertus Magnus.
