1. Description of proposed changes

The HHP Department would like to request the removal of the following minors from the catalog:

Athletics Coaching  
Exercise Science  
Leisure Studies

2. Rationale for requested change

Include data from the annual institutional effectiveness cycle or outcomes assessment; information on changes in disciplinary field(s); national, community and workforce development trends; and address any impact on enrollment trends.

Rationale: Since the Fall of 2012, only 5 people have graduated with a minor in Exercise Science and no one has graduated with a minor in Athletics Coaching or Leisure Studies. There are currently 13 students listed with these minors. However, only one student has completed more than fifty percent of the class work within the minor and 7 of the 13 students have not completed one hour within the minor. While students may initially select these minors, they rarely finish them. Due to curriculum changes within the department, all three minors would need to be adjusted. As a result, of the low demand and the needed changes, the department feels it would be best to remove these minors from the catalog.

3. Current program requirements as listed in the Catalog (**current Catalog copy—include all current required courses**)
