School of Education Mission Statement
The UTC School of Education is dedicated to the preparation of its graduates to positively impact the lives of all children and families through demonstrating excellence in content, professional practice, leadership and service.

Clinical Experience Introduction
This guide is to provide information on the policies and procedures related to Clinical Experiences within the University of Tennessee at Chattanooga’s School of Education. Clinical Experience is a highly-valued component of the Teacher Education Program, housed in the School of Education. Clinical Experience is the cornerstone of an effective education preparation program. The goal of Clinical Experience is to bridge theory and practice and is integral in developing an effective reflective practitioner.

Clinical Experience, as defined by the Council for the Accreditation of Educator Preparation (CAEP), is guided, hands-on, practical applications and demonstrations of professional knowledge of theory to practice, skills, and dispositions through collaborative and facilitated learning in field-based assignments, tasks, activities, and assessments across a variety of settings. Teacher Candidates (TC) at the University of Tennessee at Chattanooga (UTC) will complete Clinical Experience (CE) requirements while enrolled in the Teacher Education Program (TEP).

Clinical experiences are categorized as either a Field Experience or Clinical Practice:
Field Experiences: Early and ongoing practice opportunities to apply content and pedagogical knowledge in PreK-12 settings to progressively develop and demonstrate knowledge, skills, and dispositions. As Teacher Candidates progress in coursework, field experiences are designed to practice pedagogical knowledge. Teacher Candidates may have Field Experience placements in either a PreK-12 classroom or with community organizations working with PK-12 students. UTC values experiences where teacher candidates can work with students in one on one, small group, and large group instructional activities with direct oversight from a licensed teacher or mentor.

Clinical Practice: Opportunities that provide candidates with an intensive and extensive culminating, field-based set of responsibilities, assignments, tasks, activities, and assessments that demonstrate candidates’ progressive development of the professional knowledge, skills, and dispositions to be effective educators. Clinical Practice at the undergraduate level is called Student Teaching and at the graduate level it is called Induction Experience. Clinical Practice at UTC is an opportunity for Teacher Candidates to participate in diverse educational settings and to apply the concepts learned in applicable coursework.

Clinical Experience Participant Roles:
Teacher Candidate (TC): The UTC student who is working towards licensure in the School of Education’s (SOE) Teacher Education Program (TEP).
Pre-Service Instructive Mentor (PIM): During Field Experiences, the PIM will be either the teacher of record in the classroom in which you are placed or the person holding a supervisory role at the organization in which Field Experience is being completed. During Clinical Practice, the PIM will be the PreK-12 teacher of record in the classroom in which you are placed. (See Page 17 for PIM Expectations.)
Clinical Supervisor (CS): Specific to the Clinical Practice, the CS will act as the liaison between the TC and SOE. The CS will assist the TC by orienting the TC to the placement requirements, providing periodic observations, suggestions for improvement, continuous assessment of performance, and recognizing success. Formal and informal feedback from CS will be considered when determining the TC’s success throughout the Clinical Experience. The CS serves as the TC’s primary point of contact during the Clinical Practice Experience. See Appendix for CS Expectations. It is the CS’s responsibility to communicate with the PIM and the SOE to address problems and/or request support.
Field Placement Coordinator: Staff member in the SOE who oversees all clinical placements for the department. Coordinates with and trains the CS and PIMs.
Dispositions of an Effective Educator

The School of Education has identified eight dispositions with specific indicators that the effective professional educator displays. As a Teacher Candidate enrolled in the TEP at UTC, it is expected that I demonstrate the following:

Professional ethics:
- Maintaining my position as a positive role model for students and others in regular attendance, grooming, punctuality, and professional demeanor
- Demonstrating positive work habits and interpersonal skills, including a positive attitude, dependability, honesty, and respect for others
- Maintaining the standards of confidentiality regarding student information and communications
- Using sound judgment and thoughtful decision-making with consideration of the consequences

Collaboration:
- Collaborating with other professionals to improve the overall learning of students
- Understanding and involving a wide variety of resources in the school, family, culture, and community to facilitate student learning

Diversity:
- Recognizing students’ unique prior knowledge, life experiences, and interests as part of the context for student learning
- Understanding and involving a wide variety of resources in the school, family, culture, and community to facilitate student learning
- Providing equitable learning opportunities for all students

Self-reflection:
- Life-long learning and personal growth through reflection, seeking constructive feedback, and willingness to learn from others and past experience
- Using analysis and reflection to assess and plan for student learning

Belief in students’ ability to learn:
- Promoting achievement of students at all levels
- Understanding and involving a wide variety of resources in the school, family, culture, and community to facilitate student learning
- Developing students’ skills as problem-solvers as they progress toward becoming independent, self-directed learners
- Effective planning and classroom organization as tools in maximizing the time available for instruction and learning

Technology:
- Understanding and involving a wide variety of resources in the school, family, culture, and community to facilitate student learning
- Using analysis and reflection to assess and plan for student learning
- Maintain professional behavior with the use of social media while working with minors, parents of minors and colleagues.

The teaching profession:
- Accepting responsibility for what occurs in my classroom and for other school-wide responsibilities that contribute to student learning and a safe, orderly environment
- Using sound judgment and thoughtful decision-making with consideration of the consequences
- Life-long learning and personal growth through reflection, seeking constructive feedback, and willingness to learn from others and past experience
- Participating in professional growth activities within and outside the school
Professional growth:
- Participating in professional growth activities within and outside the school
- Life-long learning and personal growth through reflection, seeking constructive feedback, and willingness to learn from others and past experience

Clinical Experience Eligibility Requirements
Prior to participation in any Clinical Experience, TC must adhere to the TEP Checkpoint requirements. By participating in Clinical Experience the TC acknowledges and understands all requirements in the TEP Handbook. It is the TC’s responsibility to ensure that all requirements have been met and appropriate documentation is on file with the SOE. The TC must notify the SOE immediately if at any point the TC’s status changes, as stated in the TEP Handbook. Any student who fails to arrange to begin the field experience by mid-term per UTC calendar will NOT be permitted to complete the field experience.

If field experience is in a Hamilton County Department of Education school, the TC must provide a signed HCDE Field Experience Approval Form (See Appendix). The TC must print out and complete the form, have signed by the course professor, and drop off with the Principal’s Administrative Assistant. Do NOT email Principals about your form or completing the field experience at his or her school. Any student who does not drop off the form and make arrangements to begin the field experience by UTC calendar midterm date will NOT be permitted to complete the experience in HCDE. The Principal must sign the form prior to the TC being allowed to start the clinical experience. This form remains on-file with the school. Neither the Field Placement Coordinator nor your professor need a copy of this form.

(Clinical Practice eligibility requirements can be found on page 13.)

Policies and Procedures for Clinical Experiences
Conduct: All TCs must conduct themselves in a professional manner at all times and demonstrate the Dispositions of an Effective Educator. At all times, the TC should consider themselves preservice teachers. The TC must follow the rules of the school system or organization where placed, in addition to the University’s policies. At all times the TC must implement the mission of the SOE.

- Cell phones: TC’s must follow the policy at their placement. Cell phones are not permitted for personal use during time in the field.
- Technology: TC’s should only bring and use laptop/tablets for use during class lessons if approved by PIM. TCs are not allowed to use devices for personal use or to work on coursework while at their placement. TCs must adhere to the technology usage policy followed by the school district.
- Social Media: TC’s are not allowed to use social media for any communication with minors or parents of minors while at their placement. TCs should not post comments about their clinical experience, pictures of PIMs, students, or events at their placement, or have any communication with parents or guardians. In addition, TCs are cautioned to remove any inappropriate pictures or commentary on their personal social media sites. TCs should make all social media accounts private during their placement. Information on any social media accounts will be reviewed for professionalism. Postings on your social media sites (i.e. Facebook, Twitter, Instagram) deemed inappropriate or unprofessional by the SOE or placement site can lead to a disqualification hearing and removal from the clinical experience placement.
- Professional Ethics: The TC must model moral standards that are expected in the profession, such as confidentiality, fairness, honesty, trustworthiness, and integrity. The TC must model a commitment to intellectual, moral and professional virtues. Defamatory comments about the placement and its personnel, UTC’TEP, and the TEP’s faculty and staff will not be tolerated.

Placement: All Clinical Experiences must be arranged and/or approved by the Field Placement Coordinator per the course requirements. The SOE partners with area school districts to place TCs. Because SOE and school districts are responsible for assigning TCs to their placement sites, regional preference and special circumstances are considered, but are not guaranteed. Clinical Placement requirements will be specified in the corresponding course syllabus.
Clinical Practice: TCs are not allowed to be in the same school where they work and/or where their family members, close friends and/or significant others go to school, work, volunteer, etc. This information must be disclosed on the Clinical Practice Application (see SOE Website). Specific placement requirements will be specified in the corresponding course syllabus.

Background Checks and Liability Insurance: Prior to being allowed to begin any clinical experience, a current, clean Tennessee background check and active liability insurance must be on file with the School of Education. Per State policy, Teacher Candidates shall be denied admission to teacher preparation programs and not allowed to complete clinical experiences if they have been convicted of any of the following criminal offenses (as provided in the Rules of the Tennessee Board of Education 0520-2-4-.01).

A background check is required to be completed and documented results on-file in the SOE prior to any clinical experience. At no time, may a TC be involved in a clinical experience unless it has been confirmed by the TC that the background check results are clear. Results are sent directly to the SOE, but it is the TC’s responsibility to ensure that results have been received. When the background check is completed, the TC must retain the receipt in case there is an issue with the results being sent. Results are valid for four years so as long as the TC remains consecutively enrolled in the TEP. However, prior to being allowed to register for the Clinical Practice (Student Teaching/Induction Experience), the TC must have background check results no older than one year. If the background results were completed over one year prior to the start of the Clinical Practice semester, the TC must complete the background check again. Rarely, the School of Education will accept background checks that were completed for other purposes. In order for the TC to use a prior background check, the following requirements must be met:
- A Tennessee Bureau of Investigation (TBI) Child Related Worker/Volunteer/Private
- Must not be more than one-year-old
- It is the responsibility of the TC to provide documentation to the SOE and the TC must confirm that results have been received prior to beginning the clinical placement.

Liability Insurance must be purchased from one of the three providers below:
- Professional Educators of Tennessee (PET): Valid for one year at the time of purchase. Membership benefits include access to the professional organization.
- National Educators Association (NEA): Valid from September 1st (or at time of purchase)-August 31st. Membership benefits include access to the professional organization.
- Bursar’s Office: Valid from June 1st (or at time of purchase)-May 31st. No professional organization affiliation.

The specific procedures and details of the process for completing background checks and purchasing liability insurance are found on the School of Education website under Student Resources at http://www.utc.edu/school-education/studentresources/fingerprint.php.

Disclosure Requirements:
Candidates MUST provide full disclosure to the SOE within 5 days of any misdemeanor or felony conviction that occurs after initial background check.

Attendance: During Clinical Experience, candidates are required to follow the schedules set by the placement and the course syllabus. Tardiness and early departures are not permitted and accurate documentation of clinical experience hours must be maintained. Documentation of the placement must follow the guidelines per the related syllabus. Work or family/personal commitments cannot be excused for failing to meet the commitments of Clinical Experience. Attendance should be recorded on the Attendance Log and school records, if required. See the Appendix for the Attendance Log.

TCs are expected to follow the calendar of the schools to which they are assigned. Therefore, university days off
(example: spring break, fall break, etc.) are received only if your placement location is also off those days. Snow days or other unexpected school closing days must be made up unless the SOE declares an exception. In rare cases of delays or early dismissals, the TC must follow the official start/end time determined by the district or placement site. For example, if the district announces a 2-hour delay, the TC is expected to report to their placement site 2-hours later than when they are typically required to start their day. Any questions about start times should be communicated to the CS and/or the PIM. It is the TC’s responsibility to be aware of the news and weather alerts that could affect the school day.

Specific Requirements for Clinical Practice:
During the Clinical Practice semester, TCs will participate in a full semester, full-day placement that is arranged by the Field Placement Coordinator. During Clinical Practice, TCs are expected to arrive early and depart beyond the established dismissal times. Typically, TCs should plan to arrive at least 30 minutes early and leave at least 30 minutes beyond the dismissal time (more time may be required at your particular school). Expected arrival and dismissal times must be discussed with and set by the PIM. Because State policy requires that Clinical Practice consists of a minimum of 15 weeks, there are no excused absences and any days missed due to illness, inclement weather, bereavement and other special situations must be made up.

If illness or emergency should require a TC to be absent for any period of time, the TC must notify the school, the PIM, and the CS. If the TC is scheduled to teach during the day he/she is absent, the TC must provide the lesson plans, materials and all information for the lessons to the PIM and CS. If more than two days are missed, the Field Placement Coordinator must be notified. In cases of prolonged or repeated absence, the CS, the Field Placement Coordinator, and the Director of the SOE will, after consulting with the PIM and School Administrator, determine whether the TC’s experience will be terminated or extended. It is highly recommended that TCs do not work during the Clinical Teaching Semester. Outside commitments must be listed on the Clinical Practice Application.

TCs participating in Clinical Practice will be required to attend mandatory orientation and a midpoint meeting and all scheduled seminars. These dates will be determined prior to the start of the semester and will be listed in the Clinical Placement syllabus. Attendance at these sessions is mandatory. Important information such as licensure forms, job interview info, roles and responsibilities will be discussed. Additional requirements and information are found in the corresponding syllabus for the course.

Dress Code and Personal Hygiene: Teacher Candidates are expected to present themselves in a professional manner in all Clinical Experiences in regard to personal hygiene and appearance. At minimum the TC must adhere to the dress code at the placement site, but the following are examples of attire that are not permitted at any time: Yoga pants, anything see-through, short, tight, or low-cut clothing, flip-flops, strapless shirts, tights and sweater dresses, leggings worn as pants, or faded or ripped clothing. TCs are also required to maintain a high level of personal hygiene. Due to some individual’s smell sensitivity, strong odors are not allowed. Strong smelling perfume and/or deodorant is also discouraged due to the distraction it may cause. TCs who violate dress code or are asked to leave due to inappropriate attire may be dismissed from the program.

Clinical Experience Violations
Teacher candidates are expected to adhere to all policies and procedures set forth by UTC’s Code of Conduct, the School of Education, as well as the partnering school districts and organizations. Teacher Candidates who breach protocol for the following reasons may be dismissed from the School of Education program and may forfeit the opportunity to gain licensure:

- The appropriate school authority, for just and explained reasons, requests that the candidate be removed.
- The PIM and/or Clinical Supervisor believe circumstances are such to prevent either the development or maintenance of a satisfactory learning environment.
- Unethical behavior exhibited by the candidate (e.g., plagiarism, sexual harassment, inappropriate use of technology/social media, use of alcohol or drugs).
• Any evidence of a lack of sensitivity to multicultural situations is portrayed by the candidate (e.g., use of inappropriate terminology in reference to a particular ethnic group).
• A decision has been reached and documented with appropriate paperwork that the candidate cannot receive a satisfactory grade due to lack of professional growth and/or performance
• Excessive absenteeism, tardiness, and/or failure to comply with established rules and policies on part of the candidate are evident.

Teacher candidates who are asked to leave a field experience for any reason may be dismissed from the School of Education program. At the time of removal, the TC must meet with the Director, Field Placement Coordinator, and PIM/Course Instructor to determine if remediation is an option. The remediation plan will be set at this meeting. If remediation is not an option, the TC will not receive credit for the placement. If the TC does not satisfactorily follow the remediation plan, the TC will be removed from the TEP and not allowed to continue with the program in the future.

Clinical Experience Exemptions
Professors may approve certain Clinical Experience exemptions to TCs who are currently working in a PK-12 setting as a teacher, teacher assistant, paraprofessional, etc. No exemptions will be approved if the experience was completed PRIOR to the semester in which the course is taken. For an exemption to be approved, the TCs must provide a typed letter on the organization’s letterhead that discusses the TC’s job responsibilities and hours. After the professor receives this letter, the professor will submit this documentation to the SOE Field Placement Coordinator in Hunter 312.
Sample Clinical Practice Syllabus

University of Tennessee at Chattanooga
School of Education
STUDENT TEACHING SYLLABUS
EDUC 4XXX/5960
Credits 12/9

Students are enrolled in the specific course(s) according to their major(s). Students assigned to schools for student teaching are given placements during first week seminar by distribution list when applying.

Introduction:
The Clinical Teaching Semester has been designed to offer the Teacher Candidate, Pre-Service Instructive Mentor teacher and Clinical Supervisor plus building administrators a structure which will clearly define roles, responsibilities and expectations. This handbook should be read carefully and used throughout the semester and will serve as the syllabus for your Clinical Teaching Semester. While the handbook is prepared to serve as a general guide for TCs in all licensure areas, some programs may have special requirements that differ slightly from those given in this handbook. If this is the case, the additional requirements will be supplied by the program faculty.

**Pre Requisites and Eligibility Requirements**

The Student Teaching/Induction Experience course is a semester-long practicum experience and an integral part of the teacher education program at The University of Tennessee at Chattanooga. It is during this period that the student participates as a pre-professional in the public schools. Essentially this is the experience which provides the student with the arena for converting theory to practice and demonstrating potential to perform the teaching-learning processes. Before admission to Student Teaching or the Induction Experience, the student must:

- Secure full admission to the Teacher Education Program. Please see the [School of Education Checkpoints](#) for more information on required admission criteria.
- Apply online for clinical practice: Deadlines for School of Education students is March 1 for Residency I Fall/Residency II Spring and by September 1 for Residency I Spring/Residency II Fall. Deadlines for students not in the School of Education (e.g. Arts, Music, HPE, STEM, and Foreign Language) are March 1 for Fall semester clinical practice and September 1 for Spring semester clinical practice.
- Satisfactorily complete all professional education coursework
- Satisfactorily complete all content area coursework
- Satisfactorily complete and pass all [PRAXIS II exams required](#) for the designated area of licensure, and submit passing scores to UTC no later than July 15 for the Fall semester and November 30 for the Spring semester of which the students will engage in the five days a week clinical practice. **NO EXCEPTIONS WILL BE MADE.** It is the
responsibility of the TC to monitor the PRAXIS II testing schedule in order to meet the appropriate deadlines. There are several Praxis exams that are only offered a few times a year.

- Earn appropriate minimum grade point averages
  - for undergraduate & post-baccalaureate students: 2.75 cumulative, 2.75 at UTC, 2.75 in content coursework with no grade lower than C, and 2.75 in education coursework with no grade lower than C
  - for graduate students: 2.75 cumulative, 2.75 in content coursework or equivalent with no grade lower than C, and 3.0 in graduate education coursework

## Evaluation and Grading

The final grade for Clinical Practice (Student Teaching or Induction Experience) is Satisfactory (S), which is considered passing or Not Complete (NC), which is considered failing. This grade will be submitted by the Director of the SOE for after thorough review of the required components. Below are the major assignments TCs must complete in order to successfully complete Clinical Practice and secure the School of Education’s recommendation for licensure:

### 1. SOE TEP ePortfolio OR edTPA (both are submitted and uploaded to LiveText)

Either the SOE TEP ePortfolio or edTPA will be assigned dependent upon area of licensure and semester that Clinical Practice is completed. Teacher Candidates will complete either the SOE TEP ePortfolio or edTPA to track progress, growth, and feedback.

**SOE TEP ePortfolio:** All domains must be marked as Meets or Exceeds Expectations for each placement by the CS in order to satisfactorily pass the clinical practice. If any items on the SOE TEP ePortfolio checklist are marked Does Not Meet or Developing, a NC will be given.

**edTPA:** TCs will complete the Teacher Performance Assessment (edTPA) in accordance with the timeline and protocol provided. Candidates are required to send home a consent form titled, “Notification of Teacher Candidate Assessment” to all P-12 students involved in the learning segment. If a parent/guardian does not want their child in the video, the student should participate in the lesson but out of camera view. All consent forms should be kept in the Clinical Teaching notebook. Additional information about the edTPA and consent forms will be addressed in the seminar. Remediation will be required should a TC score below the minimum requirement.

### 2. Observation, Conferencing, and Evaluations

TCs are observed by the PIMs and by the CS and conferences are held for feedback, reflection, and goal setting. Each Teacher Candidate will be observed throughout the placement by both the PIM and CS. The observations will include a combined minimum of 4 informal and 4 formals by the PIM and CS. At the end of each placement, a summative evaluation will be completed by both the CS and PIM to assess competencies in professional dispositions and all professional licensing teaching standards. It is expected that the PIMs and CSs assigned to the school will continually share their views of the TC’s potential and will communicate those views to the TC. The final evaluation filed in the School of Education via Live Text should reflect a collaborative effort to determine the outcome of each placement and should include the signatures of those educators who had opportunities to observe the TC’s performance.

### 3. SOE Disposition Check Sheet

At the midpoint of the placement(s), the PIM will complete a Disposition Check List and results will be reviewed with the TC. If there is indication that the TC has deficiencies, a remediation plan will be developed by the CS and the Field Placement Coordinator.

### 4. Pre/Post Student Assessment

Teacher Candidates must complete a pre/post assessment to determine their own competency in using assessment within a classroom setting. Student teachers are required to develop an assessment, administer, and analyze the results with emphasis on how the data informed their teaching. **All outcomes are uploaded to LiveText**

### 5. Lesson Plans

Teacher Candidates will create a minimum of 4 formal lesson plans. These plans will be the basis for 4 formal evaluations, and the pre/post assessment should be used prior to and after teaching this unit.

TCs will follow the lesson plan format of their school placement (or edTPA, if applicable) and they must be given to the PIM two teaching days prior to teaching the lesson (before the start of school) or the observation. If the TC is responsible for teaching the lesson on the day he/she is absent, the TC must provide a copy of the lesson plan and all related materials to the PIM.

TCs should start out writing full, detailed lesson plans for each lesson taught. When the PIM and CS decide it is appropriate, TCs will be permitted to write shorter plans. However, any lesson which is to be evaluated formally should have a long lesson plan (edTPA lesson plan). When weekly lesson plans are required, submit to the PIM for review two school days prior to teaching the lesson. The PIM has the right to request lesson plans earlier than two school days.
Withdrawal or Removal Procedure
If at any point in the semester, the TC needs to withdraw from the semester, the TC must notify the Field Placement Coordinator immediately. A meeting will then be scheduled with the TC, Field Placement Coordinator, and SOE Director to determine the next steps.
If the TC is removed for any reason or does not complete the Clinical Practice a NC will be given and the TC will need to pursue the option of graduating without licensure.

Graduating without Licensure Procedure
Please refer to the TEP Handbook for information on the process of graduating without licensure.

Remediation Process
If a TC is not progressing in the expected manner during the placement, remediation may be recommended by the Field Placement Coordinator and/or Clinical Supervisor (CS) in conjunction with the PIM. Remediation is highly individualized to meet the specific need of the TC. Depending upon the identified areas and level of weakness, a remediation plan may be developed which may require the TC to do additional work or extension of the placement. The TC will not be awarded a S for the semester until remediation is successfully completed. If the remediation plan is not completed successfully, the TC will earn an NC and will not be eligible for licensure.

Note: The Field Placement Coordinator should be notified immediately if a TC receives more than half 1’s in an indicator, repeat of 1 in the same indicator, and/or preponderance of 1’s across the indicators on any evaluation form completed during a formal or informal observation. A remediation conference and/or remediation plan will be necessary when the TC continues to score 1’s (below expectations).
Expectations for Clinical Supervisor (CS) during Clinical Practice

The TCs and PIMs have the following expectations of you:

**TCs expect:**
1. Timely and periodic observation, feedback, and specific suggestions for improvement.
2. Identification of specific weakness early enough to allow for improvement during Clinical Teaching Semester.
4. Support during times of personal and professional concern.
5. Recognition of success.
6. Contact information and means of communication.

**PIMs expect:**
1. Appropriate information about the program and its requirements.
2. Timely response to professional problems, including inadequate performance and inappropriate behavior by the TC.
3. Professional courtesy in working together.
5. Contact information and means of communication.

**During the Teacher Candidate’s Experience:**
To ensure that the necessary elements of due process are provided each TC, the CS is expected to monitor the Clinical Practice Semester experience in the following ways:

1. The TC’s progress must be observed and documented by the CS on a periodic basis throughout the program. 
   - A minimum of 2 formal observations and 1 summative are required by the CS. An initial informal visit is expected prior to the 1st formal visit. If a TC is experiencing difficulty, increased contact is expected.
2. During each visit, the CS should review the TC’s binder and sign off on the attendance log.
3. The CS should observe and provide feedback to the TCs early enough in the semester to allow him/her time to improve teaching performance.
4. Comprehensive, systematic evaluation of TCs should occur during the experience. The CS should document and discuss with the TC and PIM the results and recommendations of each observation.
5. The TC is required to submit a complete, detailed lesson plan to the CS when being formally observed. During the visit, the CS will verify attendance, check over lesson plans, and ensure everything is up to date.
6. The CS should inform the TC and the SOE Field Placement Office of less than satisfactory teaching performance immediately.

**Evaluation of the Teacher Candidates by the Clinical Supervisor:**
It is extremely important that evaluations be done fairly and accurately. It is also important that the CS has significant input from the PIM. All formal evaluations should be made in regularly scheduled sessions throughout the placement and should last for an entire instructional session.

All evaluations should include specific comments and be reviewed with the TC following the observation. If a TC is not progressing, check to see that all meetings, evaluations and notes are complete and report the concern to the SOE Field Placement Office immediately. A determination will be made as to how best to proceed. Options include the development of a remediation plan, repetition of the placement, or removal from the program.

**Additional Procedures for Clinical Supervisors:**
1. Meet the principals of the schools they are visiting within the first 2 visits to the school.
2. Meet the Pre-Service Instructive Mentor (PIM) of the schools they are visiting. Exchange means for all communication (e.g. email, cell phone) and set ground rules for communication.
3. Communicate with the PIM and TC to plan evaluation visits in advance, so that schedule changes will not preclude observation. Share the observation schedule with the Principal and PIM.
4. Review carefully the periodic performance observations/evaluations of the PIM. Early identification of weaknesses should lead to early remediation, and lack of steady progress should be addressed. Notify the SOE Field Placement Office of any concerns immediately.

5. **All mass communication to PIMs and/or TCs must originate from a UTC.edu email address and copy the Field Placement Coordinator.**

6. A positive attitude in working for the benefit of the TC and PIM.
Expectations for Pre-Service Instructive Mentor (PIM) during Clinical Practice

Introduction:
Selection as a PIM is an endorsement of your competence as a teacher, commitment to students, and skill in human relations. TCs consistently rank Clinical Teaching Semester among the most valuable components of their teacher education programs. In large part, this is a tribute to the dedication and quality of you, the PIM. Guidelines of the Tennessee State Board of Education state the following criteria for selection of PIMs:

- At least 3 years of professional teaching experience in their area of licensure
- Teacher licensure in the appropriate content area/grades
- Evaluation as a highly effective teacher through local assessment and/or state evaluation procedures
- Willingness to assume the roles expected of a mentor
- Ability to work as a team member with the Teacher Candidate (TC) and Clinical Supervisor (CS)
- Facilitate learning experiences including pedagogical instruction

The TC and his/her CS have the following expectations of you:

**TCs expect:**
1. The opportunity to learn by observing your teaching.
2. Assistance in learning to plan for instruction.
3. Provision of specific suggestions for improvement.
4. Recognition of demonstrated improvement and strengths.
5. Opportunity to collaborate and co-teach.

---

**Co-Teaching**
*Full responsibility does not mean that the TC completely takes over with the classroom.* The PIM should always be in the classroom and accessible while the TC is teaching. During this period, the TC will have co-responsibility for academic planning and execution of lesson plans, classroom management, and record keeping. The PIM is not expected to relinquish all responsibility to the TC; rather the University of Tennessee at Chattanooga suggests the co-teaching model. This model allows the PIM and the TC an opportunity to work collaboratively with groups of students sharing the planning, organization, implementation and assessment of instruction, and classroom. Together this should be an opportunity to engage in a partnership that allows the sharing of resources and mutual support and learning whereas, the students benefit by being able to work in small groups, receive more individualized attention, less classroom disruptions, and fast response time. There are a variety of co-teaching strategies that have shown to be effective when both the PIM and TC co-plan and co-teach. Studies have shown that implementing the variety of different strategies have a benefit for the PIM, TC and students.

- **One Teach, One Observe** – Either the PIM or TC has the primary instructional responsibility while the other collects specific information on the students or focuses on the one who has the primary instructional responsibility.
- **One Teach, One Assist** – Either the PIM or TC has primary instructional responsibility while the other assists students, monitors student behaviors, or corrects assignments.
- **Station Teaching** – Both PIM and TC split the instructional content into sections and students are divided into groups.
- **Parallel Teaching** – Both PIM and TC instruct half of the students. Both address the same instructional content and use the same teaching strategies while reducing the student to teacher ratio.
- **Supplemental Teaching** – Either the PIM or TC work with students at their expected grade level, while the other works with students who need extension or remediation.
- **Alternative or Differentiated Teaching** – Both PIM and TC teach the same content with the same learning outcome, however both use a different approach of teaching.
- **Team Teaching** – Both PIM and TC are active participants in teaching the lesson with no clear leader. Both share the teaching, interject information, assist the students and answer questions.

---

6. A gradual release into primary planning responsibilities and guiding co-teaching.
7. Awareness that he or she is a beginning teacher and should be evaluated at the **pre-professional level**.
8. A minimum of 2 formal evaluations and 1 summative evaluation.
9. A willingness to listen and offer suggestions for growth.
10. Provide constructive criticism and support.
CSs expect:
1. A positive attitude in working for the benefit of the TC.
2. A commitment to follow University and departmental guidelines in structuring the TC’s experience.
3. Regular reporting of the TC’s progress.
4. Early alert about any problems.
5. Mutual confidence and open communication regarding the TC’s progress.
6. Support in ensuring the TC’s timely completion of responsibilities.
7. Open and ongoing communication.

Pre-service Instructive Mentor Responsibilities:
Planning for the Arrival of the TC: The TC is accorded the same status as fully certified teachers. The PIM should assemble materials and equipment, which might include:
- Instructional materials including textbooks, manuals, and curriculum guides.
- Desk or table for individual use.
- Copy of the faculty handbook, pupil handbook, school policies, plan book, and other useful information.
- Sources of information on the background of the pupils to identify ability, program of study, achievement, socioeconomic status, and individual problems.
- Access to notification system regarding school closings and/or delays
- Introduce the CT to students in a way that encourages them to respond to him/her as a classroom teacher

The PIM Welcomes the TC: The initial days of Clinical Teaching Semester are crucial for the TC. Each PIM should make every effort to ensure the TC feels welcome. Introductions to teachers, staff members, and other school personnel are important. The TC should know about the building and grounds, daily routine of the school, and appropriate working relationships with other members of the school staff.

The PIM as the Teacher of Record:
1. The PIM’s first responsibility is to the pupils in his/her class.
2. Prepare pupils to work with a TC and notify the parents that there will be a TC in the classroom.
3. Acquaint the TC with assessment criteria.
4. Immediately involve the TC in specific classroom tasks, possibly small group activities.
5. Plan a schedule with the TC for assuming responsibilities and co-teaching of the classroom, which will allow the TC to assume increasing responsibility as he/she exhibits readiness to do so.
6. Guide the TC in preparing daily lesson plans, unit plans, and tests and approve and critique all plans 2-days prior to teaching. Assist in understanding and applying evaluation techniques. (over and above edTPA requirements)
7. Demonstrate a variety of effective teaching techniques and arrange for visits to other classrooms from time to time.
8. Guide the TC in developing and understanding the skills of self-evaluation.
9. Evaluate the quality of the TC’s performance and engage in frequent informal conferences to ensure continuous progress and/or early identification of problems.
10. Encourage the TC to participate in extra curricula activities.
11. Take note of attendance and tardiness. If excessive absences or tardiness are observed, report this to the CS immediately.
12. Prepare and submit evaluation reports according to schedule.

Procedures and Evaluation of the TC by the PIM:
1. Establish a respectful environment
2. Provide the opportunity to co-teach for the CT
3. Assistance in planning for instruction
4. Provide feedback and evaluate at a pre-professional level.
5. Conduct a minimum of 2 formal evaluations and 1 summative evaluation.
6. Develop a positive relationship with the CTs CS.
Expectations for Teacher Candidates (TCs) during Clinical Practice

TCS are expected to:

1. Maintain a Clinical Practice Semester Notebook (see below) throughout the placement.
2. Keep the contractual schedules/hours of their cooperating teachers and to be on time (complete Attendance Log). Be punctual and attend each class daily, whether teaching or not. Inform the school in advance of anticipated absences, or as early as possible on the day that an emergency arises. (Document on the appropriate form).
3. Become familiar with school policies and practices and work in a manner consistent with them.
4. Become thoroughly acquainted with classroom facilities and learn the procedures used by the PIM.
5. Become acquainted with instructional materials available in the school and district.
6. Become familiar with the community and its relationship to the educational program.
7. Assume all the contractual responsibilities and expectations the school/district has of their teachers.
8. Assume this responsibility in a gradual sequence with opportunities to observe and learn from their PIMs.
9. Share the pacing guide with PIMs and plan thoroughly, in writing, for all teaching responsibilities.
10. Spend the time necessary outside of school to prepare for their teaching responsibilities.
11. Develop and have in writing an acceptable lesson plan for every lesson to be taught.
13. Dress professionally according to the dress codes of the schools to which they are assigned.
14. Ascertain permission from their cooperating teachers for all the activities they do on the school site.
15. Be observed in their assigned classrooms by PIMs, CTS and other district or UTC faculty.
16. Participate in conferences where they will receive feedback from supervisors, and to participate in the performance evaluation process with their supervisors.
17. Attend all student teaching seminars, if applicable.
18. Complete assigned work (SOE TEP ePortfolio/edTPA) on Livetext, according to published deadlines.
19. Notify PIM, CS, or Field Placement Coordinator of any persistent problems in their Clinical Practice.

Clinical Practice Semester Notebook:
TCs must keep a three-ring binder in the classroom at all times. The binder must have the appropriate dividers and tabs and the paperwork must be kept up to date. It is the TC’s responsibility to make copies of all of the evaluation documents the first week of their placement and have them ready for the PIM and the CS. The Clinical Teaching Semester Notebook must contain the following tabs and materials:

Tab 1: Attendance log (CS will sign off on every visit, PIM will sign off after each visit)
Make-Up Day’s Schedule (if applicable)

Tab 2: Lesson plans in chronological order with the most recent first

Tab 3: Formal and Informal evaluations and observations of teaching and documented feedback

Tab 4: Summative Evaluation

Tab 5: Returned edTPA video forms (if applicable)

Evaluations:
The CS and the PIM will both complete (2 each) formal observations using the form titled “Formal Evaluation.” They are encouraged to share their evaluations and each should review their evaluation with the TC in a reflective conference. The PIM and the CS will conduct the summative evaluation in collaboration. It is the candidate’s responsibility to provide all the evaluation forms.

The TC is required to submit a complete, detailed lesson plan to the CS when being formally observed. During the visit, the CS will verify attendance, check over lesson plans, and ensure everything is up to date. It is vital that the notebooks are kept up to date and in the classroom at all times.
Expectations for the Principal during Clinical Practice

The School of Education at UTC appreciates your willingness to partner with the Teacher Education Program to prepare effective Teacher Candidates. The Clinical Practice semester is a valuable experience and the TEP wouldn’t be successful without your support. An open line of communication is encouraged and ensures that any issues are addressed quickly, so please feel free to reach out to the Field Placement Coordinator with any questions. We again thank you for your partnership! Below are some expectations to guide you through this experience:

1. Accept teacher candidates as junior members of the teaching faculty.
2. Offer teacher candidates those facilities, resources, teaching materials, supplies and equipment customarily available to other teachers.
3. Ensure faculty and parents understand their responsibilities to the teacher candidates.
4. Introduce the teacher candidates and university personnel to the building.
5. Provide support as needed to the Pre-Service Instructive Mentors (PIMs) as they foster the growth of teacher candidates.
6. Offer feedback to the School of Education in an effort to better prepare new teachers.
7. Provide counsel and assistance to the teacher candidates and university personnel.
   in the development of a high quality student teaching experience in the building and the community.
Appendix Documents

- Fingerprinting Instructions and Release Form
- Clinical Experience Time Sheet
- Field Experience Participation
- Attendance Log (Clinical Practice Only)
- Make-up Days (Clinical Practice Only)
- Hamilton County Clinical Experience Form
- Hamilton County Exceptional Learning Form
- Informal TC Observation Form (Clinical Practice Only)
- Formal TC Observation Form (Clinical Practice Only)
- Summative Evaluation (Clinical Practice Only)
- Clinical Experience Memorandum of Understanding
THE UNIVERSITY OF TENNESSEE AT CHATTANOOGA TEACHER EDUCATION PROGRAM

FINGERPRINTING PROCEDURES FOR STUDENTS

The State of Tennessee and the University of Tennessee at Chattanooga Teacher Education Program requires you to undergo a fingerprint-based background check. Please follow the steps below:

- Prior to being fingerprinted see Doris Roensch in 312 Hunter Hall and sign a Fingerprint Release Form.
- Register on-line with IdentoGo prior to going out to their location. Go to https://www.identogo.com/
- Search by State: Tennessee, then follow the online directions
- Our agency name is “Non-DCS Child Care/Adoption Providers.”
- Applicant type: “Child Related Worker Volunteer (Private)”
- **The ORI number for UTC is TNCC33059.**
- Either enter zip code or on the map select the number 3 (green)
- Select your location, date, and time for you appointment
- Employer Name and Address: University of Tennessee at Chattanooga 615 McCallie Ave. Chattanooga, TN 37403 ATTN: Dr. Renee Murley, School of Education Dept 4154
- Be prepared to show a valid photo ID to the fingerprint staff on your printing date.
- You must bring a copy of the receipt to Doris Roensch in Hunter 312. You may scan and email a copy to Doris-Roensch@utc.edu. You must put your UTC ID on the copy of the receipt. The requirement will not be met until your clear results have been received by the SOE.

**NOTE:** It takes about two weeks for UTC to receive your results from the TBI.

PROFESSIONAL LIABILITY INSURANCE

To apply for Professional Student Liability Insurance:

- Liability insurance can be purchased in one of these ways:
  - www.proedtn.org
  - www.teateachers.org
  - Bursar’s office
- Each insurance option has different expiration dates, please check before purchasing. Join one of the first two organizations listed above and you will automatically get the insurance.
- You must provide a copy of the receipt to Doris Roensch in Hunter 312. You may scan and email to Doris-Roensch@utc.edu (subject line: Liability Insurance). You must include your UTC ID on the receipt.
RELEAS FORM
THE UNIVERSITY OF TENNESSEE

AUTHORIZATION TO RELEASE INVESTIGATIVE
AND CRIMINAL BACKGROUND RECORDS

I hereby authorize the Tennessee Board of Education and the Tennessee Department of Education to perform a criminal history records check on me through a qualified Tennessee licensed private investigation company.

I hereby authorize the Tennessee Bureau of Investigation to conduct a criminal history records check on me.

I further authorize the Tennessee Bureau of Investigation to release to the University of Tennessee the results of any criminal history records check.

I understand that if I am a student, the results of such investigations and/or background checks may affect my acceptance into teacher training programs at The University of Tennessee.

Disclosure Requirements:
I understand that candidates MUST provide full disclosure to the SOE within 5 days of any misdemeanor or felony conviction neglect that occurs after initial background check.

Total # of completed Clinical Teaching Semester days

Total # of days that you were absent that must be made up (complete make-up day schedule form)

**PIM** sign off date and initials: ________________

**CS** sign off date and initials: ________________

**TC** sign off date and initials: ________________
**Make-Up Day Notice:** If you have make-up days you will need to complete the chart below. Please note that you must start your make-up days immediately and they must be consecutive (that means returning to your school the next school day after both of your placements and going each day until the make-up days are completed). When you finish your make-up days, you will need your PIM’s signature verifying you made up the days and send it to the SOE. **Do not send or get your PIM to sign the document until you complete your make-up days.**

*This form is **not to be used** for clinical experiences requiring more than 40 hours. Signed Parental Consent forms must be obtained by the Ex Ed teacher prior to the opening date of the clinical experience. Schools are to keep a copy of this form on file.*
Dear Parents,
This form is to obtain parental consent to allow __________________________ (Name of college/university student) from __________________________ (Name of the college/university) to complete a field experience in your child’s class.

The activities checked below will be completed during the field experience:

_____ Observe the student in the classroom
_____ Interview the teacher or paraprofessional
_____ Observe inclusive classrooms or other exceptional education school settings (meetings, testing, conferences)
_____ Plan for and/or practice individualized instruction in the classroom or other exceptional education settings
_____ Complete a student case study or interview the exceptional education student. The case study and/or interview will involve a review of cumulative and confidential school records, conversations with me and/or my child’s teacher(s), analysis of work samples, in class observations, and the possible administration of standardized or informal assessments to identify my child’s current level of performance and educational needs. The case study will be conducted in a sensitive, professional, private and non-disruptive manner.
_____ Video tape an exceptional education setting that will be used for instructional purposes. Any other viewing of the video will be considered a violation of confidentiality.

Your signature below indicates approval for your child to participate in applicable areas of the field experience.

Name of Hamilton County Student __________________________ Date: __________

Printed Name of Parent __________________________ Signature of Parent

Signatures below indicate agreement with the parent as to the extent in which the child may be involved in the field experience.

Printed Name of College Student __________________________ Date: __________

Signature of College Student __________________________ Date: __________

Printed Name of College Instructor __________________________ Date: __________

Signature of College Instructor __________________________ Date: __________

Printed Name of School Principal __________________________ Date: __________

Signature of School Principal __________________________ Date: __________

Completed Parental Consent forms are to be kept on file at the school and are to be made available upon request.

Parental Consent is voluntary and may be withdrawn at any time.

### PLANNING

#### Instructional Plans
- Goals are aligned to state content standards
- Activities, materials, and assessments build on prior student learning, cultural background and proper sequencing
- Plan provides opportunities to accommodate individual student needs
- Allows appropriate time intervals for student work, lesson and closure, etc.
- Plan was designed for the age, background knowledge, cultures and interests of most learners

#### Student Work
- Assignments require students to interpret information rather than reproduce it
- Assignments have students draw conclusions and support them through discussion or writing

#### Assessment
- All assessments have clear measurement criteria
- Formative assessments are utilized
- Assessments measure performance in more than two ways
- Assessments are aligned to State/Common Core standards
- Written tasks are included in assessments

### INSTRUCTION

#### Standards & Objectives
- Objective(s) and standards are communicated
- Expectations for student performance are clear
- Teacher candidate relates objective(s) to prior knowledge
- Proof that a majority has mastered the daily objective and there is progression of the mastery of a standard

#### Motivating Students
- Content is personally meaningful and relevant to students
- Teacher candidate reinforces and rewards effort
- Utilization of inquiry, curiosity and exploration are evident

#### Presenting Instructional Content
- Includes examples, illustrations, analogies and/or labels for new concepts and ideas
- Modeling to demonstrate performance expectations
- Logical sequencing and segmenting across the lesson
- No irrelevant, confusing, or nonessential information

#### Lesson Structure and Pacing
- Starts promptly
- Coherent with a beginning, middle and end
- Pacing is appropriate and varied when needed
- Efficient distribution of all materials
- Transitions are smooth with little lost time

#### Activities and Materials
- Support the lesson’s objectives
- Sustain students’ attention
- Provides for student to student interaction
- Provides students with authentic choices
- Encourage student curiosity and are stimulating
- Incorporates technology when available
- Incorporates resources outside the school’s curriculum (e.g. teacher candidate made materials, manipulatives, resources from museums, etc.)

#### Academic Feedback
- Is high-quality, focused and done frequently throughout all components of the lesson
- Candidate circulates during instructional activities to support engagement and monitor student work

#### Grouping Students (whole, small, pairs, or individually)
- Group adequately enhances student understanding and learning efficiency
- Most students know their roles and responsibilities
- Individuals are held accountable for individual and/or group work
- Group composition is varied (e.g. race, gender, ability, etc.)

#### Teacher Candidate Content Knowledge
- Displays accurate content knowledge of what he/she teaches
- Implements subject-specific content strategies to enhance student content knowledge

#### Teacher Candidate Knowledge of Students
- Displays understandings of student’s anticipated learning difficulties
- Incorporates student interests and cultural heritage
- Provides differentiated instructional methods and content to ensure children have the opportunity to master what is being taught

#### Thinking
- Teacher candidate thoroughly teaches one or more types of thinking:
  - Analytical Thinking: students analyze, compare and contrast, and evaluate and explain information
  - Practical Thinking: students use, apply, and implement what they learn in real-life scenarios
  - Creative Thinking: students create, design, imagine, and suppose
  - Research-Based Thinking: students explore and review a variety of ideas, models, and solutions to problems
- Teacher candidate provides opportunities to generate a variety of ideas and alternatives
### Activities and materials include tasks that are rich with text and complexity
- **Questioning**
  - Varied and high quality providing a balanced mix of question types
  - Are purposeful and coherent
  - Require active responses (e.g. whole-class signaling, choral responses, or group and individual answers)
  - Wait time is appropriate
  - Calls on volunteers and non-volunteers
- **Problem Solving**
  - The teacher candidate implements activities that teach at least two of the following problem-solving types (circle the types):
    - Abstraction, categorization, drawing conclusions/justifying solution, predicting outcomes, observing and experimenting, improving solutions, identifying relevant/irrelevant information, generating ideas, and creating and designing

### Environment

<table>
<thead>
<tr>
<th>Expectations</th>
<th>Respectful Culture</th>
<th>Collaboration</th>

<tbody>
<tr>
<td>Sets high expectations</td>
<td>Teacher candidate-student interactions are friendly and caring</td>
<td>Candidate incorporates all suggestions and critiques made in collaboration with their PIM and CS regarding planning, teaching and assessing students.</td>
</tr>
<tr>
<td>Encourages students to learn from mistakes</td>
<td>Students exhibit respect for the teacher candidate and to each other</td>
<td></td>
</tr>
<tr>
<td>Create learning opportunities where students can experience success</td>
<td>Teacher candidate is receptive to interests and opinions of students</td>
<td></td>
</tr>
<tr>
<td>Students complete work according to teacher candidate’s expectations</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Managing Student Behavior

- Students are well behaved and on task with minor learning disruptions
- Teacher candidate follows PIM’s rules for learning and behavior
- Teacher candidate stops the lesson as needed to address student behavior appropriately.

---

**PIM or Clinical Supervisor Follow-Up with Candidate:**

Please identify the candidate’s strongest performance elements (reinforcements) and the candidate’s lowest performance elements (refinements).

<tr>
<td>Skill at motivating students</td>
<td>Content was meaningful to some students. Candidate did not consistently reinforce and reward student efforts. Candidate did not develop learning experiences where inquiry, curiosity, and exploration were valued.</td>
<td>Content was made meaningful and relevant to most students. Candidate reinforced and rewarded efforts. Candidate developed learning experiences where inquiry, curiosity, and exploration were valued.</td>
<td>Content was consistently meaningful and relevant to students. Candidate consistently reinforced and rewarded efforts. Candidate developed ample learning experiences where inquiry, curiosity, and exploration were valued.</td>
</tr>
<tr>
<td>Competence in presenting instructional content</td>
<td>Candidate failed to use examples, illustrations and/or labels for new concepts or ideas on a regular basis. Didn’t always model performance expectations. Sequencing across lesson was lacking. Presentation included confusing or nonessential information.</td>
<td>Candidate used examples, illustrations, and/or labels for new concepts and ideas most of the time. Modeled performance expectations. Logical sequencing and segmenting across the lesson was apparent most of the time.</td>
<td>Candidate used meaningful illustrations and labels for new concepts or ideas. Always modeled performance expectations. Lessons were always clearly logically sequenced and segmented across the lessons. Information was relevant to the students’ lives.</td>
</tr>
<tr>
<td>Competence in lesson structure and pacing</td>
<td>Lessons did not always start promptly. The lessons lacked structure and did not clearly contain a beginning, middle and end. Pacing was non-existent or did not provide for different learning rates. Routines and/or transitions were unorganized and inefficient.</td>
<td>Lessons started promptly most of the time. The lessons contained a beginning, middle and end. Pacing was adequate and provided some opportunities for different learning rates. Routines and/or transitions were mostly organized and efficient.</td>
<td>All lessons started promptly. The lessons clearly contained a beginning, middle and end. Pacing was clearly present and provided multiple opportunities for different learning rates. All routines and/or transitions were organized and efficient with minor interruptions.</td>
</tr>
<tr>
<td>Qualities of activities and materials</td>
<td>Materials and activities did not always support lessons’ objectives. Student interaction was limited. Technology was not used but was available. No outside resources were</td>
<td>Materials and activities supported lesson objectives and sustained most students’ attention. Student to student interaction and choices were part of most lessons. Incorporated</td>
<td>All materials and activities clearly supported lesson objectives and consistently sustained student attention throughout all lessons. Students had multiple opportunities interaction and</td>
</tr>
</tbody>
</table>
included. Tasks that were included in activities and materials lacked complexity and text.

- Most activities and materials included tasks that were rich with complexity and text.
- Creative use of technology, when available. Multiple resources were used. All activities and materials included tasks that were rich with complexity and text.

### Use of a variety of questioning types

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Unacceptable (1) Below Expectations</th>
<th>Acceptable (2) At Expectations</th>
<th>Target (3) Above Expectations</th>
<th>Overall Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use and quality of academic feedback</td>
<td>Candidate rarely offered academic feedback. Candidate did not do enough to support student engagement and monitor their work.</td>
<td>Candidate’s academic feedback was focused and frequent. Most of the time the candidate circulated during instructional activities to support engagement and monitor student work. Feedback was consistent.</td>
<td>Candidate’s academic feedback was authentic and frequently given. Candidate consistently circulated offering genuine support and documentation for student engagement and monitoring of student work.</td>
<td></td>
</tr>
<tr>
<td>Using and managing the grouping of students (whole, small, pairs, or individually)</td>
<td>Candidate rarely grouped students for clear instructional purposes.</td>
<td>Candidate’s group activities adequately enhanced student understanding and learning. Most students knew their roles and responsibilities. Individuals were held accountable for individual and/or group work. Instructional group composition was not varied consistently (e.g. race, gender, ability, and age).</td>
<td>Candidate’s group activities clearly enhanced student understanding and learning effectively. All students knew their roles &amp; responsibilities. Individuals were consistently held accountable for individual and/or group work. Instructional group composition varied (e.g. race, gender, ability, and age).</td>
<td></td>
</tr>
<tr>
<td>Teacher candidate knowledge of content</td>
<td>Candidate did not display accurate content knowledge across lessons taught.</td>
<td>Candidate displayed accurate content knowledge of what was taught. Usually implemented subject-specific content strategies to enhance student content knowledge.</td>
<td>Candidate displays accurate content knowledge of what he/she teaches and researched to add to the content being taught when needed. Consistently implemented subject-specific content strategies.</td>
<td></td>
</tr>
<tr>
<td><strong>Teacher candidate knowledge of students</strong></td>
<td>Candidate was indifferent to students’ learning needs and difficulties. Differentiation was rarely evident.</td>
<td>Candidate displayed understandings of students’ anticipated learning difficulties. Sometimes the candidate incorporated student interests and cultural heritage. Provided limited differentiated instructional methods and content to ensure students had the opportunity to master what was being taught.</td>
<td>Candidate clearly anticipated students’ needs and differentiated seamlessly so all students could master the concepts. Incorporated student interests and cultural heritage in respectful and meaningful ways.</td>

Clinical Experience Memorandum of Understanding

UTC School of Education
Teacher Candidate Clinical Experience Agreement

All Teacher Candidates are expected to follow all policies and procedures of the School of Education program as outlined by the Clinical Experience Handbook and UTC’s Code of Conduct.

Therefore, prior to beginning a semester with any clinical experience, Teacher Candidates are expected to sign the following statement indicating their understanding and agreement to adhere to these policies and ethical standards. Failure to follow these may result in disciplinary action or removal from the TEP.

As a student enrolled in a course requiring clinical experience, I agree to the following:

I have read and understand the Clinical Experience Handbook prior to entering any type of clinical experience. If I have questions about the Clinical Experience, I will seek assistance prior to signing below.

Print Name: __________________________ Signature: __________________________

UTC ID: __________________________ Date: __________________________

Course(s): __________________________ Semester: __________________________

This form is to be signed by the Teacher Candidate each semester that he or she participates in clinical experience. Each applicable semester, I will provide the Field Placement Coordinator (Hunter 312) this form to be placed in my file.
