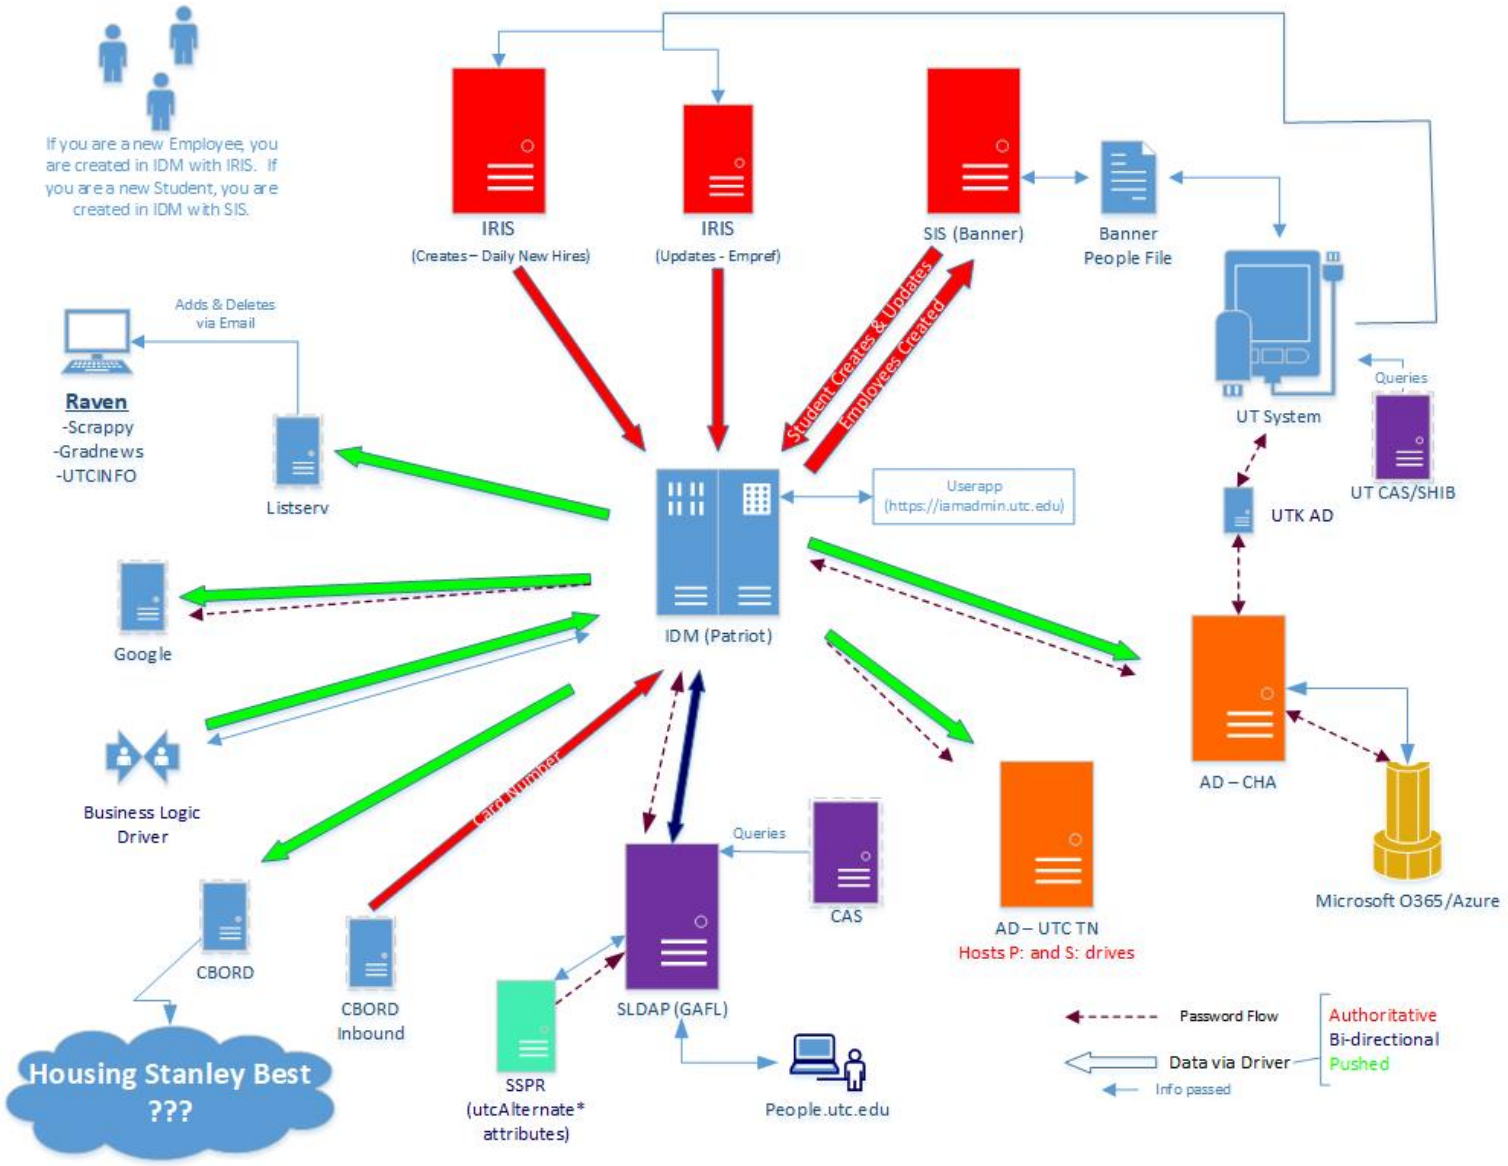
PEOPLE.UTC.EDU

The Problem with People

IDENTITY AND ACCESS MANAGEMENT



If you are a new Employee, you are created in IDM with IRIS. If you are a new Student, you are created in IDM with SIS.

CHALLENGES

- Age
- Appearance
- Accuracy

PEOPLE

- eGuide – no longer supported
- Data Source – eDirectory
- Updated by events and by user

PROPOSAL

- Continue to utilize eDirectory
- Design new Mobile Responsive Interface
- Filter Data by utilizing information in "People File" updated nightly

DECISIONS

- Who is an “active” student? Past/Present/Future
- FERPA / Privacy Concerns
- Retired / Separated Employees

ADDITIONAL INFORMATION

- Implement Ellucian Ethos EIS
- Implement 2-Factor Authentication
- Simplify / Automate existing IAM
- System wide – Identity Management

QUESTIONS / DISCUSSION
