General Education DFW Rates by General Education Category

Notes:

1. Categories and Subcategories come from the General Education section of the University Catalog for the corresponding year and courses are subject to being added and removed due to certification process.
2. Courses certified in more than one category are counted in each category.
3. The individual category total counts and percentages are for each unique course and not the cumulative totals for each subcategory. The General Education total count and percentage is comprised of unique courses through all categories and subcategories.
4. N is the total count of D, F, and W for all courses in each category and subcategory. The DFW% is calculated using the number of D, F, and W's from all courses within that subject and dividing it by all grades (A, B, C, D, F, and W).
