The Upward Bound Math Science program is 100% federally funded by U.S. Department of Education at $250,000.00 annually.
WHAT IS UPWARD BOUND MATH SCIENCE?
Upward Bound Math Science is a federally funded TRIO program that is designed to strengthen the math and science skills of participating students. The overall goal of the program is to help students recognize and develop their potential to excel in math and science and to encourage them to pursue postsecondary degrees in these fields.

WHAT ARE THE ELIGIBILITY REQUIREMENTS?
• The student must be an up and coming ninth grader or enrolled in the ninth, tenth, or eleventh grade at Brainerd High School or Howard School of Academics and Technology.
• Must be first-generation (Neither parent has graduated from a four-year institution).
• Student must meet the U.S. Department of Education income guidelines.
• Recommended by a Math and/or Science teacher.

WHAT DOES THE PROGRAM CONSIST OF?
The Upward Bound Math/Science: PRISM program consist of an Academic and Summer Component.

**Academic Component: October through May**
The academic year component consists of classes on Saturdays with Hamilton County School Teachers, UTC professors and staff. The academic areas covered include Math, Science, English Composition/English Literature, Computer Science and Academic Counseling/Career Exploration and Research. These classes are designed to supplement high school work and prepare students for postsecondary education.

**Summer Component: June and July**
This year the Upward Bound Math Science: PRISM program will conduct a six-week residential program. The summer curriculum emphasis is on subject matter enrichment (not remediation) and intensive research in areas of math and science.

WHAT OTHER SERVICES ARE PROVIDED?
Other services include:

**Academic and Career Counseling**
There will also be special seminars offered concerning career/educational planning, preparation for college admission and personal improvements (e.g., character education and goal development).

**Tutorial Services**
Mandatory weekly tutorials will be arranged for students who make a C or below in their courses during the academic year. The weekly tutorials are designed to adequately assist students in their understanding of classroom assignments. UTC graduate and undergraduate students will conduct these sessions.

**Mentoring**
Participants will be paired with UTC students or professionals that are majoring/and or working in science and math fields. The mentors will serve as direct source of information on the benefits of postsecondary education. This component will help the participants strive toward educational goals that are attainable for them.

**Cultural and Educational Enrichment Activities**
Cultural and Educational Enrichment activities are designed to broaden, expose and provide opportunities to enhance each participant’s learning experience. These activities include field trips: such as plays, college visits, and musical concerts.

WHAT ARE THE PROGRAM DATES?
The Upward Bound Math Science: PRISM program operates year round. The Academic Component is from September to May, and the Summer Component is held in June and July.
