

Research Paper

Due Date: 9/27

You will write a paper with at least 5 pages (I do not mean 4.5 or 4.75 or 4.9) on the topic you chose. I am going to try something new and force you to do some work before the last minute. You will need to turn in an outline and a first draft. The dates are as follows:

- Outline 9/13
- Draft 9/18
- Final 9/27

10% of your paper grade will be based on your outline, 10% on your draft, and 10% on your presentation.

This is a research paper. The second day of class we discussed what should and should not be included in a research paper. You must follow the standards. If you do not, your grade will suffer. Be sure you use proper referencing, grammar and format. As I said, this is at least a 5 page beyond the title and abstract page double spaced paper, Times New Roman 12 font, and margins should be 1 inch. As usual attach all products to BlackBoard.
