

Poll Everywhere & Canvas LMS LTI 1.3/LTI Advantage integration guide for Canvas educators

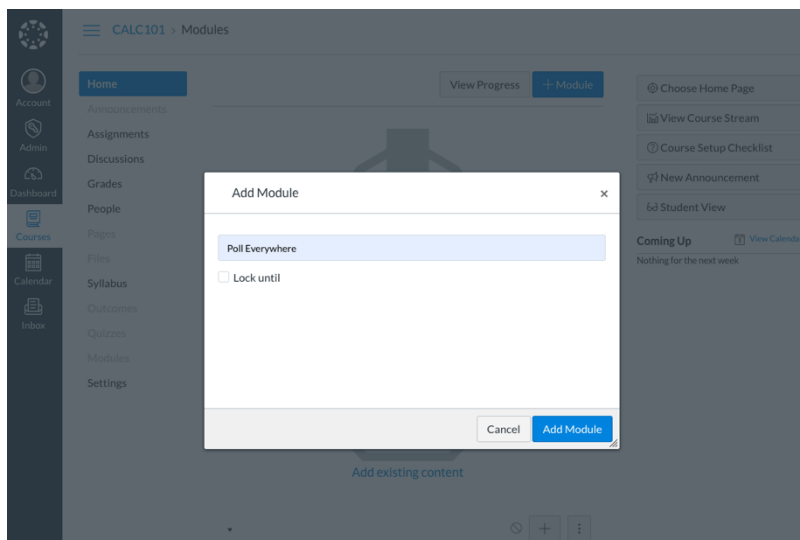

Version 2.0.0

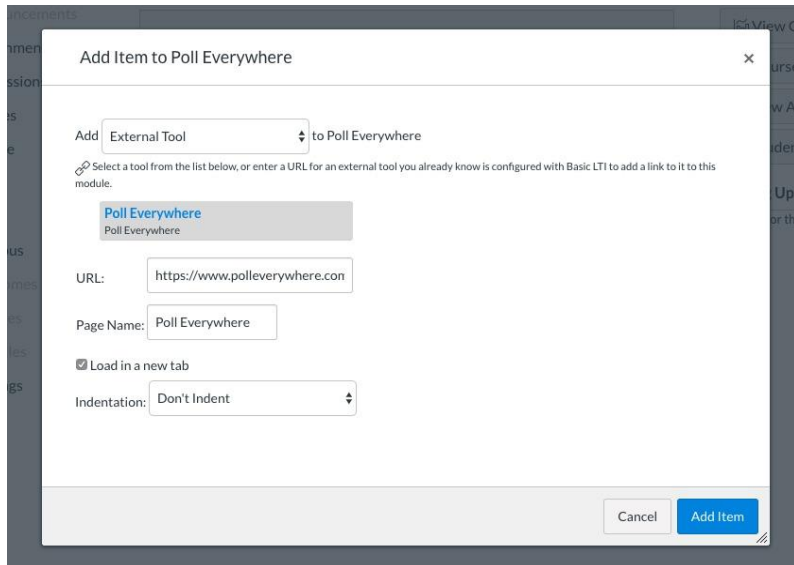

Before you begin

In order to use the Poll Everywhere LTI Advantage Canvas integration, you must first Publish the course.

Connecting your course to Poll Everywhere

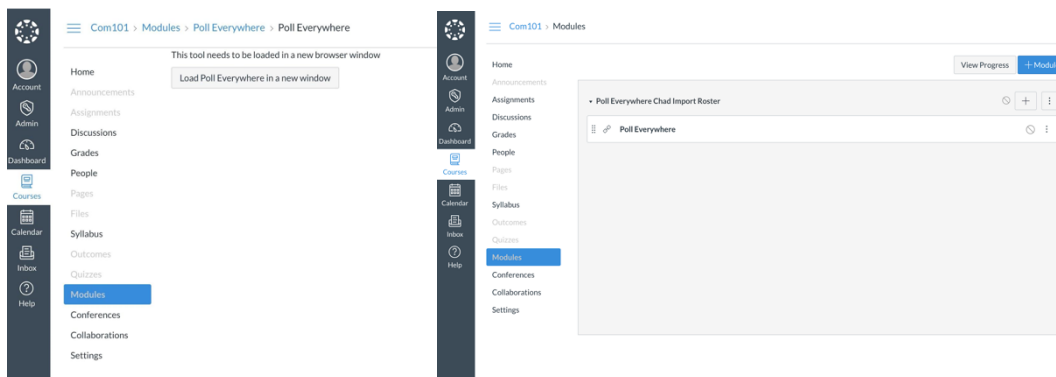

1. Go to the course that you wish to connect with Poll Everywhere and click the '+ Module' button. Name the module whatever you like in the subsequent popup window, then click the 'Add Module' button to save.
2. Within your new module, click the '+' button. From the dropdown menu at the top of the popup window, select 'External Tool', then select Poll Everywhere. URL and Page Name fields will auto-populate below. Lastly, check the 'Load in a new tab' checkbox to and click 'Add Item' to save.

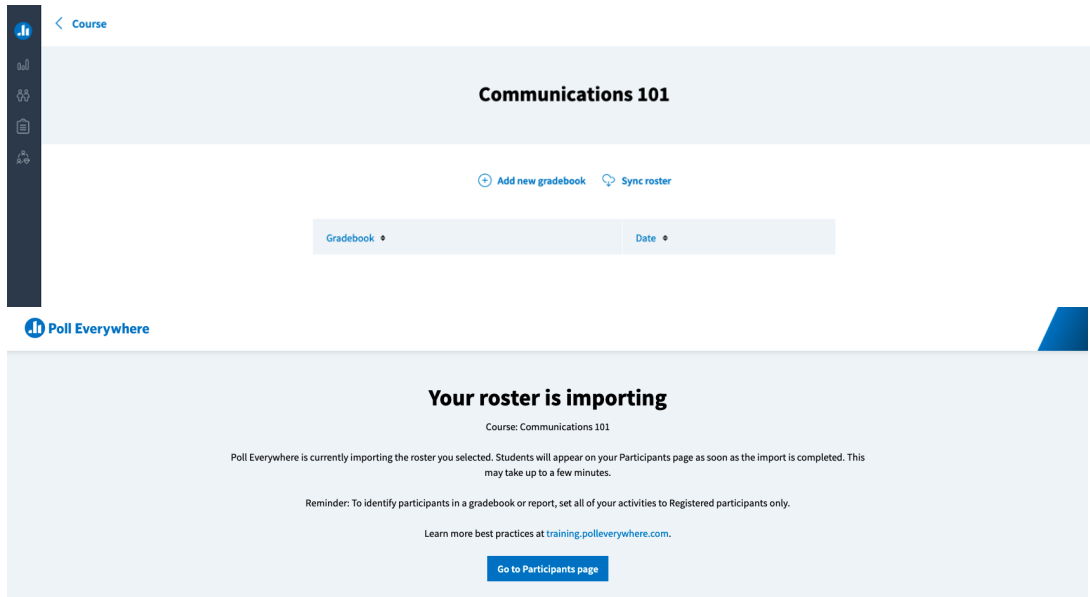

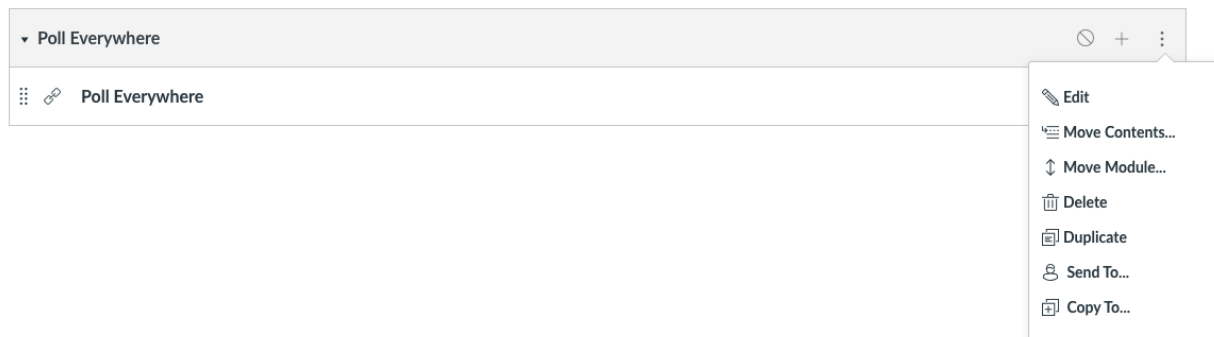

3. Now, click on the new Poll Everywhere link that you made within the module. You will see a 'Load Poll Everywhere in a new window' button. Click this button to launch the Poll Everywhere connection.
4. In the new tab, you will be asked to acknowledge you are launching Poll Everywhere through Canvas. Acknowledge the launch. On the next page, you will see a button to 'Sync roster' to import the students from your course into Poll Everywhere.

After you click this button, a page will inform you that the participant import is proceeding, and you will see a 'Go to Participants page' button. Click the button. Once on the participants page, you will be able to verify that the import took place because there will be a new group named after your course.

Now that you have connected your course to Poll Everywhere, you can delete the module you used to make the connection. Optionally, you can use the link in this module to perform future LTI actions.

Re-syncing your roster

You may want to re-sync the participant roster for your course after the initial connection. This may be necessary if students dropped or added to your course in the LMS. Re-syncing will create Poll Everywhere participant profiles for new students and add them to your Poll Everywhere participant group, while removing dropped students from your participants group.

You can initiate the resync from two places: either by launching the LTI connection from the module, or from the Poll Everywhere Participants page. To re-sync your participants from the module, follow the same steps you took in the previous section. The following section will show you how to re-sync the participants from within Poll Everywhere.

1. Navigate to the Participants page and click on the LMS Courses link.

Participants
Manage the participants that respond to your activities.

[Add participants](#) [Change group](#) [Reinvite](#) [Remove](#) [Export CSV](#) [LMS Courses](#)

To add or remove a user from a group, click the associated group circle.

- A filled-in circle indicates a user is in the group.
- An outline circle indicates a user is not in the group.

<input type="checkbox"/>	First name	Last name	Groups	Created at	<input type="checkbox"/>	<input type="button" value="Edit"/>

Exporting a Gradebook report

Once you have collected some activity results from students, you can export those results to Canvas. You can initiate this flow from the Canvas module, from the Poll Everywhere participants page, or from a Poll Everywhere report. Each report you export will create a single grade column in Canvas, regardless of the number of activities in the report. Poll Everywhere Gradebook reports can either be exported as a graded assessment or for participation.

If you are exporting a report starting with the Canvas module, click through the module you created in the 'Connecting your course to Poll Everywhere' section and jump to Step 3.

If you are starting from a specific Gradebook report in Poll Everywhere, jump to step 5.

1. Start on the Participants page and select the LMS Course link.

Participants
Manage the participants that respond to your activities.

[Add participants](#) [Change group](#) [Reinvite](#) [Remove](#) [Export CSV](#) **LMS Courses**

To add or remove a user from a group, click the associated group circle.
● A filled-in circle indicates a user is in the group.
○ An outline circle indicates a user is not in the group.

Groups [Edit](#)
● Communications 101
● Ungrouped
[New group](#)

2. On the LMS Courses page, select the course for which you want to create a Gradebook.

[Participants](#)

LMS Connections

Name	Date	
Communications 101	August 19, 2021, 10:57:11 AM	<input type="button" value="Sync roster"/>

3. From this page you can create a new Gradebook report, or choose a Gradebook that you have already created for this LMS course.

Note: You cannot edit the activities within a Gradebook report, but choosing a previously created report will allow you to update and re-export the results.

5. Review the Gradebook report, and click the Export button at the bottom right when you are ready to export the grades to Canvas.

Note: The name of your report will be the name assumed by the grade column in Canvas. You can rename your report by clicking on the 'Rename' link next to the title at the top of the report.

- When you click the export button, you will see a popup that will either ask you to confirm the LMS course, or select the course to export the report to from a dropdown menu. Additionally, you will have the option to export the report as Grades or Participation. Make your selections, then click Next.

Name	Custom Report Identifier	Rank (?)	Grade (?)	Participation (?)	Polls

Export report

Exporting this report will automatically update it to include only the students from the imported course.

The report will be filtered to the Communications 101 group.

- The following pop-up will now filter the report by the participants in your LMS Course and start the export. You should then see a message indicating that the export has completed and is processing in the background.

- Once the export is complete, head back over to Canvas and click into your Grades center to verify that the new Gradebook column was created.

7 0% 100%

Export complete

The gradebook is now processing in the background. The results will appear in the Grade/Results center for the Communications 101 course in a few minutes.
