Description

This information will appear in the online catalog above the curriculum course requirements. Do not use this field to describe the proposal for the reviewers in the workflow.

Follow these steps to propose courses to the new program curriculum:

Step 1

There are two options for adding courses: "Add Course" and "Import Course." For courses already in the catalog, click on "Import Course" and find the courses needed. For new classes going through a Curriculog Approval Process, click on "Add Course"—a box will open asking you for the Prefix, Course Number and Course Title.

Step 2

Click on "View Curriculum Schema." Click on the area/header of the program where you would like to add courses. When you click on "Add Courses" it will bring up the list of courses
available from Step 1. Select the courses you wish to add. For removing courses click on the \( \times \) and proceed.
