Event Information and Prospectus

Event Description

The annual community-wide STEM event, the Chattanooga Technology Symposium, will be on April 15, 2024, and will feature projects from students from Hamilton County schools (K-12), Chattanooga State Community College, Cleveland State Community College, Dalton State College and the College of Engineering and Computer Science at UTC.

The event is sponsored by industry and community organizations in the greater Chattanooga region and is planned by a team of community and educational leaders. The event is open to the public; there is no charge to attend.

At the day-long event, K-12, undergraduate and graduate students will present their capstone and research projects to attendees, including demonstrations that reveal real-world implications with resulting applications and outcomes. Attendees can browse through projects, participate in live presentation sessions, interact with presenters and other participants and more. A keynote presentation and awards presentation ceremony will also take place during the morning session. Below is a preliminary schedule for the event.

- 9–9:15 a.m. Welcome Messages
- 9:15–10 a.m. Keynote Presentation
- 10 a.m.–1 p.m. Project presentations
- 2–2:30 p.m. Presentation of Awards

The key audiences for the Technology Symposium include K-12 and university students and educators; members of engineering, business, science, and technology industries; recruiters of technical talent; community members interested in STEM fields; and the general public.

Judging Opportunities

Community members can volunteer an hour to judge 4-5 projects. No expertise in engineering or computer science is required—presenters need feedback from all professions.

THE UNIVERSITY OF TENNESSEE CHATTANOOGA
College of Engineering and Computer Science

The Technology Symposium is hosted by The University of Tennessee at Chattanooga and the College of Engineering and Computer Science
